SUMMARY

Motivated Network Engineer with CCNA certification and strong understanding of routing protocols (RIP, OSPF, BGP) and network security. Skilled in network troubleshooting and monitoring tools (SolarWinds, Wireshark) with hands-on experience in implementing scalable SOHO networks. Proven problem-solver with effective communication skills.

TECHNICAL SKILLS

- **Networking:** TCP/IP, OSI Model, Subnetting, Routing (RIP, OSPF, BGP), Switching (STP, RSTP, VTP), VPN, Firewalls, Network Configuration & Troubleshooting.
- **Tools:** SolarWinds, Wireshark, Packet Tracer.
- **Cloud:** AWS (EC2, S3, RDS, Lambda).
- **Operating Systems:** Windows, Linux.
- **Database:** MySQL.
- **MS Office:** Excel, Word, PowerPoint, Outlook.
- **Scripting:** Python.
- **Directory Services:** Active Directory.

INTERNSHIPS AND PROJECTS

Network Intern, Network Rhinos (Duration: 2 months)

- Configured and monitored Cisco routers and switches to ensure network stability and reduce downtime.
- Resolved 90% of network-related issues using troubleshooting skills.

Project: SOHO Network Design and Implementation

- Designed and implemented a small office network with internet access, VPN, VoIP phones, and backup solutions, ensuring seamless connectivity for 20+ devices.

EDUCATION

B.Tech in Computer Science and Engineering

Bharath Institute of Higher Education and Research, Chennai, Tamil Nadu (Aug 2020 – May 2024)

- Score: 81%.

HOBBIES

- Reading books, listening to music, and traveling.
