

DEVI PHANIJA NUVVALA

PL/SQL Developer

• phanijanuvvala@gmail.com • +91-8106771575

OBJECTIVE

I aim to establish a challenging and rewarding career with a globally renowned organization, utilizing my expertise as a PL/SQL Developer. I am committed to contributing to the organization's success by achieving its objectives through both independent and collaborative efforts, while consistently enhancing my skills and fostering mutual growth.

EDUCATION

B. Tech from Velagapudi Ramakrishna Siddhartha Engineering College affiliated to JNTU University with 7.59 CGPA.

M.P.C from Sri Chaitanya Girls Junior college (State Board of Intermediate) with 94.3%.

S.S.C from Sri Chaitanya Techno school (State Board) with 9.7 CGPA.

EXPERIENCE SUMMARY

PL/SQL Developer at Wipro Limited (August 2022 – Present).

PL/SQL Developer at STG Chennai IT Services India Pvt Ltd (June 2019 – July 2022)

TECHNICAL SKILLS

Technologies: Oracle 12c, 11g, 19c

Oracle Tools: PLSQL developer, SQL developer

Other Tools: Power BI

PROFESSIONAL EXPERIENCE

- Proficient PL/SQL Developer with 5 years of experience in designing, developing, and maintaining Oracle database solutions.
- Expertise in writing complex SQL queries, stored procedures, functions, triggers, and packages to optimize database performance and streamline business operations.
- Skilled in Agile and SDLC methodologies, with hands-on experience in end-to-end development and maintenance of database applications.
- Adept at handling critical modules such as inventory management, commodity tracking, inventory loan processing, member lifecycle management, and automated report generation.
- Strong analytical and problem-solving skills with the ability to understand and implement business requirements efficiently.
- Dedicated to learning and adapting to new technologies, ensuring high-quality deliverables, and collaborating effectively within teams or independently.

PROJECT EXPERIENCE

Accrual Computation of PMS Product

Project Description:

The project is to compute the Accrual revenue on a monthly basis for PMS (Portfolio Management

Services) Products which are distributed offline by ICICI Securities.

Responsibilities:

- Collaborated with business stakeholders to resolve data rules, queries, and process-related challenges, reducing turnaround time for issue resolution.
- Developed and optimized PL/SQL database components such as Views, Procedures, Functions, Packages, and Triggers, reducing query execution time by 20%.
- Created and managed Synonyms and grant routines, improving secure access and streamlining database operations.
- Applied advanced SQL features, including Regular Expressions, Analytical Functions, External Tables, and Data Masking to address complex requirements.
- Generated monthly reports for accrual revenue analysis, providing clear insights to support financial decision-making.
- Utilized Materialized Views to precompute and cache results for complex queries, significantly improving retrieval times.
- Ensured the finalization and timely delivery of accurate datasets, achieving 99.9% data accuracy in project deliverables.
- Worked extensively on Audit Logs and Job Scheduling.
- Implemented SQL query performance tuning, achieving up to 40% reduction in query execution times and enhancing overall database performance.
- Executed data migration projects involving large datasets with zero downtime and ensured data integrity throughout the process.

Automation of Monthly Activities

Project Description:

The project is to automate the monthly processes for accrual and actual revenue computation, leading to significant improvements in efficiency and time management.

Responsibilities:

- Developed and optimized PL/SQL Procedures, Packages and Functions to automate monthly processes, resulting in a 30% improvement in process efficiency and significant time savings for the finance team.
- Implemented SQL query performance tuning techniques, achieving up to 40% reduction in query execution times and enhancing overall system performance.
- Performed debugging to identify and resolve performance bottlenecks, reducing critical issues by 30%.
- Designed and created database objects such as Tables, Views and Indexes across development and testing environments to support project needs.
- Managed audit logs, job scheduling, and monthly report generation, ensuring timely execution and accuracy, which improved operational efficiency and streamlined reporting processes.

PERSONAL INFORMATION

Father's Name: Mr. N. V. Nagarajan

Date of Birth: 25/07/1997

Nationality: Indian

Gender: Female

Languages known: English, Hindi and Telugu.
