PZ

SUMMARY

An experienced Test Engineer with a strong background in end-to-end QA activities and a passion for delivering high-quality software solutions. Demonstrates proficiency in a variety of testing methodologies and tools, with proven success in leading teams and enhancing testing efficiency and effectiveness. Committed to leveraging expertise to support the development of cutting-edge applications while ensuring outstanding product quality and customer satisfaction. Eager to contribute innovative solutions and drive excellence in QA processes.

SKILLS

Manual Testing	Functional Testing	System Testing	SQL
Regression Testing	Smoke/Sanity Testing	Test Plan	TFS
Traceability Matrix	Test Planning	User Acceptance Testing	
Usability Testing	SDLC	STLC	Defect Life Cycle
			JIRA
Agile Methodologies	Test Cases	Java	Selenium
			CI/CD
Web/Mobile/Desktop Application Testing	Automation Testing		
Quality Assurance	Black Box Testing	API Testing	Postman
Defect Tracking	Performance Testing	BDD Cucumber	

EDUCATION

Bachelor of Engineering

G H Raison College of Engineering

08/2012 - 08/2016 Nagpur, India

STRENGTHS

💎 Proficient In QA Methodologies

Strong understanding of various QA processes and methodologies.

💎 Test Planning Expertise

Skilled in designing effective test scenarios and plans.

💎 Leadership In Testing Teams

Proven ability to lead and enhance testing efficiency.

💎 Dedication To Quality Assurance

Committed to ensuring product quality and customer satisfaction.

💎 Testing proficiency

Skilled in various testing methodologies and tools.

💎 Efficiency improvement

Strong track record of enhancing testing efficiency.

💎 Leadership skills

Proven success in leading diverse teams.

💎 Quality commitment

Dedicated to delivering high-quality software solutions.

EXPERIENCE

Senior Test Engineer

Accolite Digital [Client-Morgan Stanley]

02/2022 - Present Bangalore

A digital consulting firm that provides innovative solutions to various clients including Morgan Stanley.

- Handled end-to-end QA activities from defining testing scope, requirements to conducting UAT for Morgan's groundbreaking applications.
- Developed ingenious test scenarios, accurately estimated test efforts, and crafted comprehensive test plans ensuring thorough coverage and efficient testing practices.
- Conducted various types of testing including functional, regression, usability, integration, UAT, localization, globalization, exploratory, system testing by following established test processes.

Validation Services Analyst

Bioclinica [aka Clario]

11/2020 - 02/2022 Bangalore

A global provider of clinical trial and imaging services.

- Facilitated end-to-end testing and release activities for critical healthcare applications by carrying out various types of testing including smoke, functional, regression, API, UI, DB, Cross-Browser, UAT, and compatibility.
- Skillfully identified test cases based on user stories, meticulously crafting comprehensive test scenarios & test cases reducing 25% field defects and improving customer satisfaction.
- Communicated risks associated with test execution and took mitigating action when necessary, enhancing product quality, & developed traceability documentation to aid in investigating faults and defects.

Quality Control Associate

DSG [aka INDSPL]

08/2018 - 10/2020 Bangalore

A company providing software solutions and services.

- Developed and executed comprehensive test cases for functional and integration testing, maintaining meticulous test reports and tracking logged defects.
- Defined and implemented quality initiatives to reduce risk.
- Conducted investigations into questionable test results.
- Drafted technical documents such as deviation reports, testing protocol, and trend analyses.
