- IIT BOMBAY (TECHARDIANCE): Mobile Robotics.
- Kristu Jayanti College - IT Quiz (Blitzkrieg).
- Cyber Security Virtual Internship-Edu Skills.
- Data Analytics-AWS Academy.
- AWS Academy Graduate - AWS Academy Machine Learning Foundations

PROJECTS

- **Polling Booth**

A polling booth is a designated location where voters go to cast their votes during elections. The primary purpose of a polling booth is to provide a secure and organized environment for citizens to exercise their right to vote. Utilized Django's powerful framework to develop a user-friendly platform for conducting polls. Leverage VS Code's intuitive interface for efficient coding and seamless integration, ensuring a robust and dynamic polling booth experience.

- **Process Management System**

Process management refers to the activities and mechanisms involved in the creation, execution, and control of processes. It is a fundamental part of an operating system's functionality and involves managing the resources and activities associated with processes.
