CAREER OBJECTIVE

Cloud DevOps Engineer with hands-on experience at SPAE Analytics Private Limited, proficient in Docker, Kubernetes, Terraform, Jenkins, and cloud platforms (AWS and Azure). I am eager to contribute my skills in a dynamic environment where I can design and implement effective, cost-optimized cloud solutions that drive impactful results.

PROFESSIONAL SUMMARY

- Having experience on Azure services like AKS, ACR, VMs, Vnets, NSG, Blob Storage, DevOps Services, Load balancers, App gateway, Azure DNS zone, Azure monitoring and Databases.
- Exposer in creating and setting up secure network architecture by using services and resources Vnet, VPN, APP GATWAYS, SECURITY GROUPS.
- Developed and managed declarative pipelines in Jenkins along scheduling jobs and build configurations.
- Experience in Managing Jenkins plugins, updates and integrations with other tools.
- Experience in creating and managing Infrastructure in Azure, AWS through Terraform scripts.
- Build the Docker Images from Docker files tagging and pushing to Docker hub, ACR, ECR by Jenkins pipeline.
- Analyses the Docker logs when Docker containers are not up after deployment.
- Experience in writing Kubernetes manifests for Deployments, Services, Config-maps and Secrets.
- Monitor system performance, troubleshooting issues, optimizing cost and performance.
- Good in patching activity for all Environments (Prod, DEV, TEST).
- Having experience on AWS Cloud services like IAM, EC2, Lambda, ECR, S3, VPC, RDS, ELBs, Route53, CloudWatch and EKS.
- Good Knowledge on Boards, Repos, Pipelines and along in writing YAML scripts for build and deploy pipelines in Azure-DevOps.
- Prepare budget estimation for pay as you go and reserved types.

TECHNICAL SKILLS

- | | |
|---|--|
| • Cloud – AWS, Azure | • Container Service Tools – Docker, Kubernetes |
| • CI/CD – Jenkins, Azure DevOps, GitHub actions | • Web servers – Nginx |
| • Versional Tool – GIT, GitHub | • OS – Linux (Ubuntu, Red hat), Windows |
| • IAC – Terraform | • Shell scripting |
| • Configuration tool – Ansible | |

WORK EXPERIENCE

Cloud DevOps trainee Engineer at SPAE Analytics Private Limited, Hyderabad.

April 2024 – September 2024

PROJECTS HANDLED

Project Name: More House

Environment: Azure, Jenkins, Git, Terraform, Docker

Role: Cloud & DevOps Trainee Engineer

- Developed and maintained **Terraform scripts** for various infrastructure provisioning including Virtual Machines (VMs), Blob Storage, Virtual Networks, Load Balancers, Azure DNS zone and PostgreSQL databases.
- Created & stored **Terraform Remote** state file in Azure blob storage.
- Developed and managed Jenkins jobs, CI/CD pipelines, build configurations, handled **Jenkins plugin** updates.
- Build custom Docker images with **Docker file**, tagging and publishing them to **Azure Container Registry (ACR)**.
- Experience deploying and maintaining multi-container applications through Docker.
- Deployed Microservices in different namespaces of Kubernetes cluster with Jenkins pipeline.
- Implemented parallel deployment successfully within Jenkins pipelines.
- Monitored and optimized Azure accounts, subscriptions, billing with **Azure Monitor** and cost management tools.
- Configured and managed **SSL certificates** on VMs, integrated with **Azure DNS zones** for secure routing.
- Managed **roles, users**, and access controls in **AWS IAM** and **Azure Entra ID**, with **role-based access control**.
- Created and maintained **Azure** and **AWS cloud environments** for **development** and **production** workloads.
- Established metrics and monitored resource utilization across environments using Azure Monitor.

EDUCATION

- Completed Graduation from DNR College of Engineering and Technology in Bhimavaram. (2020-2023)

PERSONAL STRENGTHS

- Good Listener and Quick Learner
- Adaptable
- Collaborative

ACHIEVEMENTS

- Awarded 'A' certificate in the National Cadet Corps (NCC). (06/2013 - 08/2015)

HOBBIES

- listening music
- Jogging
