

**Engineering General Manager: India & Global**

Performance centric outcome driven Engineering General Manager with 27 years of experience in automotive product development and an executive MBA (Senior Management Program) from IIM Kozhikode, seeking a leadership role to drive business results which ensure sustainable profitability through strategic growth, operational excellence, continuous improvement & innovation with a leading product design & manufacturing company.

Professional journey has a proven track record attributed to 60+ product launch experiences (full PDLC) across 7 categories of automotive sub systems. In addition - a 1 yr. EPCSMP from Indian Institute of Management Kozhikode, focused on upskilling & developing value – driven business for the next Step of my pursuit for excellence with a global mindset for Business Leadership & associated responsibilities.

Instrumental in setting up departmental organizations, COE labs & offshoring business units (YFJCAL, China + FORD BU, UK + NA VA/VEBU) catering to sustainable revenue generation of approximately (\$2.4 Bn) business services for over 24+ years with key contributions towards capability development & problem solving. Proven ability to lead & motivate high performing cross functional teams to successfully deliver high quality products which has an overall Validation First Time Pass record of 96% across all products along with 10- 15% BOM cost reduction through concurrent engineering and average YOY profitability continuum of 24% across multiple products. Successfully turned around multiple business acquisitions which were booked on 6% ROI to 10.5% ROI through efficiency improvements of 30% & productivity improvements of 45% without compromise to product quality rather increased customer satisfaction resulting in volume 15% increase.

Prudent leader ensuring strategic investments for resources, tools & skill enhancements with dual objective of driving organizational sustainability in terms of retention targets as well as increased employee engagement providing dividends of 10% YOY efficiency improvement. Resulting in 5 patents being filed & subsequently granted.

Delivered products received customer recognition for sustainable quality metrics of average  $\leq 6$ ppm. Committed to fostering a culture of customer centric service, accountability, collaboration, continuous learning & innovation driving business results and ensuring sustainable profitability

Collaborated with sales & product leaders on product strategy for OEMs, driving new business pursuits & delivering technical solutions to expand customer relationships & penetrate new markets.

**Qualification:**

- **Executive MBA (Senior Management Program)**, 2024-25, IIM, Kozhikode
- Bachelor of Engineering (*Production Engineering*), 1998, BVCOE, Pune

**Product Applications:**

|                               |                           |                        |                  |
|-------------------------------|---------------------------|------------------------|------------------|
| Instrument Cluster & Controls | Infotainment Devices      | Active & Passive Entry | Embedded Systems |
| Power Electronic Systems      | Ambient Interior Lighting | Seating Systems Design |                  |

**Industry Customers:**

- 4W Industry: Skoda–VW, Stellantis (PSA), Mahindra, Tata, Renault, DICV, Ashok Leyland, Maruti Suzuki, GM, Fiat, Nissan, Mazda & Ford
- 2W Industry: Royal Enfield, HMCL, TVS.

**Products:**

Infotainment, P2P Display, Dual Display, Instrument cluster (Digital, Hybrid & Analog), Silver Box, HUD, RPAS Sensors, Immobilizer, Steering Switch ECU, Interior Ambient Lighting, DC – DC converter, RKE (Active & Passive Entry), BCM, Wireless Battery Chargers, HVAC, Driver Information Devices, Seating Sys. Design, Mechanisms Design (Recliners, Tracks, HRS & Armrest), Climate Control Sys.

**Professional Journey Partners:**

- Visteon Technical Services Centre, Bangalore: (*May 2020 to Present*) – *Mech. Delivery Mgr. (India, EU & SA)*
- Hella India Auto. Pvt. Ltd., Pune: (*Aug'12 to May'20*) – *Global Mech. Design Group. Manager (Senior Manager)*
- Delphi Auto. Sys. Pvt. Ltd., Bangalore: (*Sep'05 to Aug'12*) – *Technical Leader Mechanical*
- Tata Johnson Controls Auto. Ltd., Pune: (*Mar'99 to Sep'05*) – *Lead Engineer*
- DesignTech Sys. Pvt. Ltd., Pune: (*Aug'98 to Mar'99*) – *Tech Support & Application Engineer*

**Onsite Assignments & Overseas Experiences:**

- Onsite Assignment (2 years) at FORD BU; Chelmsford UK
- Multiple visits to China, Germany & USA – setting up BUs, Appearance Engineering COE trainings, multiple customer interactions & multiple business meetings

**Additional Noteworthy Accomplishments:**

⇒ 3 India Patents Granted – # 491274, # 459608 & # 502505.

## Professional Experience Summary:

Visteon®

1. Current Organization: Visteon Corporation, Pune: [May 2020- Till date]  
Designation: Mechanical Delivery Manager (India, EU & SA region) (33 Products)
  - ⇒ Heading Mechanical Design Team for 2W, 4W projects & responsible as delivery manager for 8 PLs across locations (Pune, Bangalore & Chennai) ensuring product design delivery for contracted business.
  - ⇒ **Driving employee engagement with zero attrition for 4 years** through mentoring & technical capability development for India DPLU (MDO) team (Managers & interns) + enabled completion of 15+ "Green Belt Certification Projects"
  - ⇒ Supported business acquisitions – approx. \$2.3Bn.
  - ⇒ Ensuring process compliance, supporting internal & external certification audits, driving Global Improvement Initiatives which includes Mexico & Bulgaria.
  - ⇒ Troubleshooting product issues engaging with global experts + driving problem solving.

2. Hella India Automotive Pvt. Ltd., Pune: [Aug 2012- May 2020]  
Designation: Global Mechanical Design Group Manager (Senior Manager) (12 Products)
  - ⇒ Represented HIA Pune Centre at the Global WW Hella Mechanical Leaders Forum.
  - ⇒ **Setup entire Mechanical Design department & ensured stability with zero attrition over 7+ years.**
  - ⇒ **Enabled new business acquisitions – approx. €90.5 Mil** (2018 – 2020).
  - ⇒ Initiated global engineering services generating opportunity for experience sharing.
  - ⇒ Ensured Global & CFT interaction – PP, SQA, QPE teams are adequately supported for issue resolution.
  - ⇒ Enabled organizational level audit compliance & certifications, resource, project & cost management, career mapping & development roadmap generation (DFMEA, CTQ, Verification & Validation testing), new technology acquisition & research for organizational utilization.

3. Delphi Automotive Systems, Bangalore: [September 2005 - August 2012]  
Designation: Technical Leader Mechanical (9 Products)
  - ⇒ **Setup Appearance Engg COE lab** in India – enable design & support of appearance requirements.
  - ⇒ **Global TALC COE Core Group Member:** Completed 6 week training on Appearance Engg. in US & Mexico. Practical exposure on Optics & Resolution of display related issues.
  - ⇒ **Completed two 6 Sigma Green Belt certification.**
  - ⇒ Enabled business acquisition – approx. \$ 1 Bn. Customer RFQ – baseline concepts & preliminary estimates for BOM cost & resource requirements.
  - ⇒ Completed a 3-month Resident Engineer assignment at Mahindra & Mahindra, Nashik
  - ⇒ Captured TGR/TGW. Supported post launch issues, engaged in RCA for warranty related customer complaints. Utilized problem solving using tools like 3L5W, FTA, Fish Bone Analysis, etc....
  - ⇒ Provided technical expertise in building & developing the mechanical product design team; imparted departmental & organization level training on Delphi processes & systems. Strengthened customer relations with OEMs; attended customer workshops, project kick-off meetings & styling discussions.

4. Tata Johnson Controls Automotive Ltd., Pune: [March 1999 – Sept. 2005]  
Designation: Technical Leader Mechanical (7 Products)
  - ⇒ **Set up offshore operations in China** (Client: Shanghai Yang Feng Johnson Controls Automotive Ltd.)
  - ⇒ Set up **VA/VE BU**, led & delivered 4 projects; *recorded actual savings of \$10.2 v/s target \$11 per car set.*
  - ⇒ Led the CPP Group of North America Business Unit from May 2003 to Apr 2005; involving resource allocation, resource utilization, generation of metrics for management presentations, appraisals, etc...
  - ⇒ **Onsite Assignment (2 years):** Design Engineer for Rear Seats at Ford BU (JCI - Chelmsford, UK; Apr 2001 to Apr 2003). Customers – Mazda J37G & Ford Fusion cars launched in Europe & India (Full PDLC); **set up off – shoring activities** for TJC from the unit - continuously providing nonstop business
  - ⇒ Employee rep. for Strategy Org Meetings - presented **SWOT analysis** depicting voice of employees
  - ⇒ Conceptual design for Climate CS packaging; auto-retracting HR mechanisms, armrest mechanisms, etc...
  - ⇒ Played a key role on the design team delivering seats for Fiat Sienna, Weekender & Palio vehicles

5. DesignTech Systems Pvt. Ltd., Pune: [August 1998 – March 1999]  
Designation: Technical Support & Application Engineer
  - ⇒ Accounted for highest number of software sold in APAC Region purely on technical grounds
  - ⇒ Trained: 15 scientists at VRDE Ahmednagar (IDEAS – Artisan Series), 12 individuals at ITI Goa (SMARTCAM), 18 engineers of Tetra Pak Nichrome, Pune (IDEAS - Artisan Series)
  - ⇒ Provided support & inputs for effective SW utilization of IDEAS – Artisan Series at Rishi Laser Cutting
