EDUCATION

Indian Institute of Information Technology- Lucknow

MS - Data Science

Lucknow, Uttar Pradesh

Aug 2023 - June 2025

K J Somaiya College of Science and Commerce

BSc - Mathematics and Statistics

Mumbai, Maharashtra

July 2018 - June 2021

EXPERIENCE

AI-Engineer Intern -DevOpzLabs [Offer Letter](#)

Oct 2024 - Present

- AI-Driven Education Platform: Built a GPT 4o + Docling-based solution to parse textbooks (text, images, voice) for personalized learning. Leveraged RAG for doubt-solving, CAG for memory, and fine-tuned chatbots. Implemented real-time assessments, scheduling, progress tracking to empower public schools.
- AI-Powered Recruitment: Automated profile scraping (Selenium, BeautifulSoup, residential proxies), stored data in PostgreSQL, and leveraged LangChain with RAG for semantic search, enabling interview automation.

KEY COURSES

Business Intelligence and Analytics-NPTEL [Certificate](#)

Mar 2024

- Skills & Outcomes: Demonstrated expertise in Business Intelligence, SQL, Python, Data Visualization, and Data Management, mastering data preprocessing, statistical analysis (20+ tests) on 1M+ records.

DSMP 1.0 and 2.0 Machine Learning with mlops-CampusX [Certificate](#)

Jan 2024

- ML and MLOps Expertise: Proficient in Python, feature engineering, and building ML models, Plotly, and tools like Git, DVC, Docker, Kubernetes, CI/CD pipelines, MLflow, data analysis and scalable MLOps solutions.

Authored a Research Survey [Survey Paper](#)

May 2024

- Sequential Data Processing Expertise: Explored deep learning architectures from RNNs to Transformers, focusing on LSTMs, attention mechanisms, and Encoder-Decoder models for tasks like translation and temporal data analysis.

PROJECT

Real Estate Data Science Initiative - [View Repository](#)

Oct 2023

- Scraped property records, applied data cleaning, EDA, and feature engineering (outlier detection, imputation, selection). Built 10 ML models, achieving 90.10% accuracy (XGBoost with tuning), and deployed via Streamlit with interactive visualizations, recommendations, and price predictions.

SwiggyAI: Predictive Delivery Solution - [View Repository](#)

Jan 2024

- Built a FastAPI-based app to predict food delivery times using real-time inputs. Applied data preprocessing, EDA, and model optimization with DVC pipelines, MLflow, and DagsHub for tracking. Deployed scalable APIs on AWS with Docker and automated CI/CD workflows.

Automatic Image Captioning with PyTorch - [View Repository](#)

Apr 2024

- Built a ResNet50-LSTM-based neural network using transfer learning for STS caption generation. Trained on the MS COCO dataset (120K images), achieved a BLEU score of 0.2091, and deployed using Streamlit.

Document-Based Q&A Using RAG and LLaMA 3.2 - [View Repository](#)

June 2024

- Designed a PDF-based Retrieval-Augmented Generation system using LangChain, Unstructured for PDF parsing, HuggingFace BGE embeddings, and Qdrant (Dockerized) for vector storage. Integrated LLaMA 3.2 with Ollama for local execution and deployed an interactive Streamlit interface for real-time QA.

Agentic Fine-Tuned RAG System for Research Insights with Langflow - [View Repository](#)

Dec 2024

- Designed an advanced RAG system with Langflow for document processing and reasoning on CVPR papers, fine-tuned LLaMA using QLoRA, optimized retrieval with Qdrant, and simplified research through summarization, comparison, and robust reasoning tools.

TECHNICAL SKILLS

Languages & Tools: Python, PyTorch, Scikit-Learn, TensorFlow, Keras, SQL, LaTeX, Power BI, Docker, AWS

Libraries & Frameworks: Streamlit, LangChain, Ollama, Qdrant, Groq API, Hugging Face Transformers, FastAPI

Coursework: Machine Learning, Deep Learning, Artificial Intelligence, Big Data, Data Science, Statistical Analysis

Soft Skills: Decision Making, Time Management, Team Collaboration, Technical Communication, Problem-Solving

ACHIEVEMENTS & VOLUNTEERING

IIT JAM 2023: Achieved All India Rank (AIR) 876 in Mathematics - 2023.

NSS Volunteer and Leader: Organized community service projects, led teams, and facilitated awareness campaigns.

Teacher Assistant: Assisted with teaching Probability and Statistics to undergraduates, including support in lectures and grading assignments.
