

PALLAPOTHU PRASAD

Ponnaluru, Andhra Pradesh IPH: +91-6301726531, pallapothuai999@mail.com

CAREER OBJECTIVE:

A highly motivated AI professional with over a year of experience in machine learning, deep learning, and large language models (LLMs). Seeking to leverage my expertise in Python, Java along with hands-on experience in chatbot systems, data analysis, and AI model deployment, to contribute to innovative projects in a dynamic environment that fosters continuous learning and growth.

EDUCATION:

- Bachelor of technology (AI&DS)
Mahendra engineering college
Cumulative GPA : 8.97
2020 – 2024
Salem, TamilNadu.
- Intermediate Education (State Board of Intermediate)
Sri Viveka Junior College
Cumulative GPA : 9.3
2018 - 2020
Kandhukur , Andhra Pradesh.
- Schooling (SSC)
Govt Z.P. High school, Ponnaluru
Cumulative GPA : 8.7
2017 - 2018
Prakasam, Andhra Pradesh.

WORK EXPERIENCE:

ABE GROUPS , NEURA --Jr. AI Developer

Nov 2nd – Present (1 Year)

AI-Powered Employee Query System (Personal Conversational Chatbot)

- AI Model Development: Trained AI models using GPU acceleration to efficiently handle employee queries regarding topics like leaves, salary, and due dates from a company database.
- Hierarchical Access Control: Implemented a role-based system where employees could access relevant personal data, while higher-level executives like the CEO could access all employee information.
- Utilized GPUs for faster model training and execution.
- Integrated the system with a MySQL database for real-time data access.
- Deployed on Amazon EC2 instances and tested using Postman API.
- Achieved 87-92% accuracy in query response performance. Collaborated with a team to integrate AI solutions and improve project outcomes.
- Developing the models from the conversational chatbot to summarize the words.

ACADEMIC PROJECT:

SMART GLASSES FOR VISUALLY IMPAIRED PEOPLES

Key responsibilities:

- Conceptualized and developed smart glasses tailored for visually impaired individuals.
- Integrated AI and computer vision technology to enhance accessibility and independence.

- Implemented features such as object recognition and text-to-speech conversion.
- Conducted user testing to refine functionality and user experience.
- Improved model accuracy from 85% to 92% through continuous iteration.
- Contributed to increasing independence for visually impaired individuals.

AREA OF INTREST:

-
- Machine learning & LLM GEN AI

TECHNICAL SKILLS:

-
- **Programming Languages:** Java ,Python SQL.
 - **Framework:** Pandas, Numpy, Scikit-Learn, Matplotlib, Seaborn.
 - **Tools:** Microsoft office, excel ,power BI.
 - **Platforms:** Google Colab, Jupyter Notebook, PyCharm, VS Code, Eclipse. Soft
 - **Database:** Mysql,monoDB,AWS

CERTIFICATES:

-
- Participated in National Conference on Emerging Technologies and Applications (NCETCA 2023) at Krishnaswamy college of Engineering Attended Workshop.
 - Training in the area of "MACHINE LEARNING "at Mahendra Engineering college on 15-03-2023.
 - **Journal Publication, *Journal of Foundational Research* (May 2024)**
Authored an article on intelligent guided eyewear for visually impaired individuals, integrating AI for real-time perception and navigation to advance accessibility and quality of life.
 - Successfully completed an internship at Pantech Pvt. E-Learning in September 2023, focused on AI tools.

ADDITIONAL SKILLS:

-
- **Soft Skills :** Decision making,Effective Communication,Multi-tasking, Team work,Time management.
 - **Languages:** English(R-W-S) , Telugu(R-W-S) , Tamil
