2016 - 2020

SKILLS

Technical Skills JavaScript, ReactJS, TypeScript, Redux, Jest, Node, HTML, CSS, Bootstrap, Mysql, MongoDB

Version Control Git, GitHub, TFS

EXPERIENCE

Software Engineer

Laminaar Aviation Infotech

Jun 2022 - Present

Mumbai, India

- To develop the web application using ReactJS library along with HTML, Javascript, CSS, Redux.
- Played a key role in designing and implementing features with unit testing ensuring seamless user experiences and robust functionality.
- Contributed to the development of web applications such as a ATSM (Air Traffic Staff Management) and Common Admin demonstrating proficiency in React JS.
- Collaborated closely with cross-functional teams to deliver projects on time and within scope, while adhering to best practices and coding standards.

Technical Engineer

TCTSL PUNE

Feb-2021 - Sep 2021

Pune, India

- Provided expert troubleshooting support for customer-related issues pertaining to Real-Time Messaging Protocol (RTMP) based broadcast products.
- Proficiently handled server installations and configurations, ensuring optimal performance and reliability of the systems.

PROJECTS

Common Admin:

- It is web application and it is common for all project within Laminaar Aviation Infotech.
- Design a web form for user and implement a validation functionality.

ATSM (AIR TRAFFIC STAFF MANAGEMENT)

- The Air Traffic Staff Management (ATSM) serves as a critical tool utilized by Air Traffic Control (ATC) officers.
- This includes overseeing tasks such as duty assignments, managing holidays, and other administrative functions crucial to the efficient operation of ATC facilities.
- By integrating these features, ATSM enhances operational efficiency and streamlines administrative processes for ATC staff, ensuring optimal performance and coordination within the organization.
