

PRASHANTH REDDY GADDAM

SUMMARY

Machine Learning Engineer with 2.4 years of experience in developing, deploying, and optimizing machine learning models. Skilled in data preprocessing, feature engineering, and working with large datasets to deliver scalable, production-ready solutions. Passionate about leveraging AI/ML techniques to drive data-driven decision-making and improve business outcomes.

EXPERIENCE

Digital Specialist Engineer, 07/2022 - Current Infosys Analytics Professional - Hyderabad, India

Worked on Data Science Domain. gaining hands-on with Python, Machine learning, Generative AI, Pandas, Numpy, prompt engineer and Neo4j.

Completed certifications - Python Professional, Data Science Practitioner using python.

- Technical Expertise: Python, Pandas, Numpy, Deep learning
- Project Experience: Machine learning, Generative AI, LLM, Langchain, NLP, Neo4j, SQL, Prompt engineering.

Roles and Responsibilities:

- **Model Development & Implementation:** Design, develop, and implement machine learning models and algorithms to solve business problems and optimize processes.
- **Data Collection & Preprocessing:** Gather, clean, and preprocess large datasets from various sources to ensure data quality and suitability for machine learning models.
- **Feature Engineering:** Identify and create relevant features that improve the performance of models and enhance predictive capabilities.
- **Model Training & Evaluation:** Train machine learning models, evaluate their performance using appropriate metrics, and fine-tune hyperparameters to achieve optimal results.
- **Collaboration:** Work closely with data scientists, data engineers, and business stakeholders to understand requirements, deliver solutions, and provide insights from model outputs.
- **Performance Monitoring & Maintenance:** Continuously monitor model performance post-deployment, making necessary adjustments or retraining models as new data becomes available or business requirements change.
- **Research & Development:** Stay up to date with the latest advancements in machine learning techniques, tools, and technologies, and apply new methods to improve model performance and efficiency.

Infosys Experience (11/2022 - Present):

Skill Demand Forecasting Project

Role : Data Scientist (AI/ML)

- Developed and implemented a time series analysis model to forecast skill demand within the organization.
- Achieved 92% accuracy in predicting future skill requirements, helping the organization make informed decisions about training needs for new hires.
- Provided insights into skill gaps, enabling the prioritization of targeted training programs for talent development.

Graph Lineage with Generative AI

Role: Data Scientist (AI/ML)

- Developed a **Graph Lineage** solution utilizing **Generative AI** to automatically map and visualize complex data workflows, enhancing data transparency and traceability.
- Designed and implemented algorithms to trace data flow, identify dependencies, service calls and create interactive graphs for end-to-end lineage visualization.

EDUCATION

High school, MPC,
04/2018 Sri Chaitanya jr college-Andhra Pradesh.

Bachelor of Technology, Electronics and communication Engineering,
07/2022 Presidency university-Bangalore

SKILLS

- Python(NumPy, Pandas)
- Machine Learning
- Generative AI
- Deep learning
- Natural Language Processing
- Database Management – SQL,Neo4j
- Prompt engineering
- Process Automation
- Graph data modeling
- JAVA
- Angular

CERTIFICATIONS

Infosys Certified Data Science Practitioner Using python
Infosys Certified Data Science using Python Professional-Part1
Infosys Certified Data Science using Python Professional-Part2
Infosys Certified Python Associate
Infosys certified Python Programmer
Infosys certified Java Programmer

LANGUAGES

Telugu: First Language, **English:** C2, **Hindi:** B2, **Kannada:** B2
