Education

Madan Mohan Malaviya University of Technology

10/2020 - 06/2024

Bachelor of Technology in Computer Science Engineering (CGPA of 7.78)

Experience

Accenture

04/2024 - current

Packaged App Development Associate

- Developed, designed, and maintained technology solutions to improve **client operations** and **global progress**, thriving in dynamic environments.
- Utilized versatility to create **tailored solutions** that precisely met client requirements from analysis to implementation.

Protoezy

01/2023 - 04/2023

Web Developer Intern

- Utilized MongoDB for efficient data storage, ensuring seamless retrieval and manipulation of data in the MERN stack environment during my **3 months** of immersive internship experience.
- Developed interactive user interfaces using React and implemented back-end functionalities with Express.js and Node.js, contributing to the successful completion of **2+** projects during my full-stack web developer internship.

SpacECE

04/2022 - 07/2022

Web Developer Intern

- Collaborated effectively with team of **8** to implement interactive features using JavaScript.
- Optimized website performance by **20%** to ensure smooth user experiences.
- Work on **4+** Pages of **child health management** Project.

Projects

Pedagox-A Learning Platform | *Tailwind CSS, React.js, Redux-toolkit, Node.js, MongoDB* | [Code](#) | [Live](#)

- Pedagox**, a robust ed-tech platform, employs the **MERN stack** for seamless learning experiences. It fosters global instructor-student connections, offering an interactive interface. It contains **13+** pages.
- The system architecture employs **Node.JS**, **Express.JS**, and **MongoDB**, supporting user **authentication**, **course management**, **Razorpay** integration for **6+** payment methods, **Cloudinary** for media storage, **Socket.io** for chat and contains **25+** endpoint **API**, and Markdown formatting

ShubhShop | *Css, React.js, Express.js, MongoDB* | [Code](#) | [Live](#)

- Provides **potent** and **scalable** solutions for **online businesses** with more than **25** pages. Facilitates seamless product management, secure transactions, responsive design, and **efficient** performance.
- Integrates more than **4** Tech Stack like **MongoDB** for **robust data storage**, **Express.js** for efficient **server-side** routing, **React.js** for intuitive user interfaces, and **Node.js** for **JavaScript** execution

ShubhMovie | *Css, React.js, react-redux* | [Code](#) | [Live](#)

- Fetches a movie API to showcase **20** Movies per pages.
- Delivers** a user-friendly UI reminiscent of **Netflix's** design that **displays 1000+** movies and incorporates functionality for a seamless experience. Utilizes **Redux** for efficient **state management** and enhances organization

Achievements

- Highest rating of **1330** at Codeforces, which is the top site in terms of participation of programmers across globe.
- Highest rating of **1685** at CodeChef, which is the top site in terms of participation of programmers across globe.
- Secured Global rank of **4994** in Round F of Google **Kick Start 2022** [Certificate](#).
- Ranked **4994** among 12000+ participants (**Among Top 30% participants**) in [Google Kickstart 2021 Round F](#).
- Ranked **447** among 20000+ participants (**Among Top 4% participants**) in [Codekaze - Junnet'23 Round 2](#).
- Solved more than **1300+** problems across platforms.
