SUMMARY

An experienced and dedicated data engineer with 3.5+ years of proven experience in designing & implementing data pipelines to extract, transform, load (ETL) data from various sources into datalake using etl tool like Talend. Proficient in SQL & PLSQL for analyzing the large amount of data and modify it in meaningful format as per business requirement. Exposure to data visualization tool Tableau. Strong problem-solving abilities & attention to detail. Responsible for end-to-end Development, testing, UAT, deployment of Data sources into Datalake.

Technical Skills

- ETL & BI Tools : Talend Open Studio (TOS) for data integration, Tableau ,TAC
- Expertise : Agile, Data integration, Data Pipeline, Data optimization
- Database : PostgreSQL, Greenplum, Oracle, SQL
- Other tools : Github Desktop , DBeaver , ServiceNow , Rally, WinScp, Putty, MS – Excel, Draw.io
- Certifications : Google Associate Cloud Engineer

WORK EXPERIENCE

Data Engineer (Tata Consultancy Services)

Client : General Electric Vernova (GE Vernova)

April 2021 – January 2022 (Project : Greenplum migration)

- Migrated Talend jobs and database queries from production V4 to V6.
- Maintained expected data quality along with version code changes.
- Cross communicated with developers and DA's of different domains to ensure smooth migration.
- Proficient in Talend components and functionalities .

February 2022 – October 2024 (Project : Finance Cash Visibility)

- Experience in collecting, cleaning, analyzing multiple sources using etl tool TALEND.
- Proficient in creating complex SQL, PLSQL queries for data extraction, transformation and loading to support etl processes.
- Developed functions, stored procedures, views using PLSQL for data manipulation & database Optimization.
- Hands on data visualization using tableau for building & using dashboards and reports.
- Collaborating with cross-functional teams, including data architects, APM'S, business stakeholders to understand data needs & implement ETL solutions.
- Communicate technical concepts and solutions to non-technical stakeholders effectively.
- Implemented automation processes, query optimization using PLSQL.
- Troubleshoot & resolved ETL & SQL related issues in production systems.
- Supported in migration of Talend to Apache Airflow
- Working in safe agile methodology.

EDUCATION

Bachelor of Engineering (EXTC) | 7.21 CGPA

Saraswati College of Engineering, Kharghar • Mumbai, Maharashtra • 2020

HSC (Science) | 68.92 %

NES Junior College of Arts, Science and Commerce • Mumbai, Maharashtra • 2016

ACHIEVEMENTS

- Received best executed program award by customer
- Received on the spot award
- Appreciated by customers and stakeholders for critical deliverables and month -quarter closing activities and support.
