EDUCATION

X - XII

DELHI PUBLIC SCHOOL

Dhanbad, JH | Jul 2016- 18

B.Tech Computer Science

GRAPHIC ERA HILL UNIVERSITY

Dehradun, UK | Jul 2019- 23

WORK EXPERIENCE

GEEKSFORGEEKS | IOS DEVELOPER

Noida, UP | Jun 2023 – present

- Skilled in developing iOS apps, including features like **GeeksCommunity** and **Jobs Portal** utilizing various APIs for data integration using **SwiftUI** and **MVVM Architecture**.
- **Analytics Integration** Proficient in integrating Google Analytics events to optimize app performance and enhance user engagement.
- **User Onboarding and Payments:** Experienced in crafting user-friendly onboarding experiences and implementing secure payment solutions within iOS applications.
- **Release Management:** Successfully managed app release cycles, including distribution on the App Store and Test Flight, ensuring timely updates and adherence to industry standards.

AMAR UJALA | IOS DEVELOPER INTERN

Noida, UP | Dec 2022 - jun 2023

- **iOS Development Skills Enhancement:** Acquired foundational knowledge in SwiftUI, **memory management**, **iOS application architecture**, and **animations**, **AV Player**, **MapKit** and **Rest Apis** demonstrating a commitment to staying updated with the latest iOS development practices and technologies.
- **API Testing and Version Control:** Proficient in using Postman for API testing and version control systems like Git for efficient collaboration and code management within development projects.

PROJECTS

FOOD DELIVERY APP-SWIFTUI

Developed a dynamic and user-friendly food delivery application using SwiftUI, featuring intuitive UI components and seamless navigation. Leveraged SwiftUI's modern declarative syntax to create engaging user experiences, enhancing customer satisfaction and usability.

CREDIT CARD FRAUD DETECTION SYSTEM :

Engineered a robust credit card fraud detection system utilizing machine learning techniques in Python. Implemented advanced algorithms to analyze transaction data and detect anomalous patterns, enhancing security measures and minimizing financial risks for stakeholders.

UBER CLONE

Created a feature-rich Uber clone app using Core Location Manager for precise location tracking. Implemented MVVM architecture and RESTful APIs for seamless data communication. Incorporated essential features like user authentication, route optimization, and payment processing, ensuring a smooth and secure ride-sharing experience.

SKILLS

Languages: Swift, python

iOS Development : SwiftUI, MVVM, Combine, Resolver, Location manager, Firebase, Realm Db, SQL, Analytics events

Technology: Git, bitbucket, jira, postman API, App store connect, Test Flight.
