## Objective

Detail-oriented Python Developer with one year of experience in developing, testing, and maintaining software applications. Possess six months of experience as a TRIRIGA Developer. Eager to leverage my expertise in Python and TRIRIGA to contribute to innovative projects.

## Professional Experience

### Python Developer

ECIFM Solutions India Pvt. Ltd, Gurugram, Haryana  
December 2021 - June 2023

- Developed and maintained Python applications, ensuring high performance and responsiveness.
- Collaborated with cross-functional teams to define, design, and ship new features.
- Implemented data processing scripts and RESTful APIs using Python.
- Conducted code reviews and optimized existing code for better performance.
- Troubleshoot and debugged applications to ensure smooth functionality.
- Worked with version control systems like Git for efficient project management.

### TRIRIGA Developer

ECIFM Solutions India Pvt. Ltd, Gurugram, Haryana  
December 2021 - June 2023

- Developed and customized TRIRIGA applications based on client requirements.
- Integrated TRIRIGA with external systems for enhanced functionality.
- Created and maintained TRIRIGA reports and workflows.
- Provided technical support and troubleshooting for TRIRIGA-related issues.
- Collaborated with the QA team to ensure the quality of TRIRIGA applications.

## Education

### PG Diploma in Big Data Analytics

CDAC Noida, Uttar Pradesh  
Completed: Mar 2020

### Bachelor of Technology in Computer Science and Engineering

AKTU University, Lucknow, Uttar Pradesh  
Graduated: May 2019

## Certifications

Data Analytics Certification

[PW (Physics Wallah)], [Pursuing]

## Technical Skills

- **Programming Languages:** Python, JavaScript
- **Web Technologies:** HTML, CSS, Flask, Django
- **Database Management:** MySQL, PostgreSQL, PL/SQL
- **Tools & Platforms:** TRIRIGA, Git, JIRA, VS Code
- **Data Analysis:** Pandas, NumPy, Matplotlib
- **Operating Systems:** Windows, Linux

## Projects

### [Customer Churn Prediction]

- Built and optimized a logistic regression model to predict customer churn using historical data.
- Performed feature engineering to improve model accuracy.
- Presented findings and actionable insights to the marketing team, aiding in the development of targeted retention strategies.

### Sales Forecasting

- Developed a time series forecasting model to predict monthly sales for a retail company.
- Used ARIMA and Prophet Models to achieve high accuracy in forecasts.
- Automated the data pipeline for regular updates and predictions.

## Internship Experience

### Data Scientist Intern

Slash mark, Remote

February 2024 - June 2024

- Worked on data cleaning, preprocessing, and visualization using Python.
- Assisted in developing machine learning models to predict key metrics.
- Presented insights and reports to the team for data-driven decision-making.

## Soft Skills

- Problem-Solving
- Team Collaboration
- Effective Communication
- Time Management
- Attention to Detail

## Languages

English, Hindi
