Results-driven Team Lead and Senior Web Developer with 10+ years of experience in designing and deploying high-performance web applications. Proficient in Laravel, with expertise in Eloquent ORM, Blade templating, and RESTful APIs. Skilled in leading teams, providing technical guidance, and implementing CI/CD pipelines for scalable, secure solutions. Experienced in optimizing performance, managing back-end services, and integrating third-party APIs. Proven ability to mentor developers and foster collaboration while ensuring project timelines are met.

Skills

Backend Frameworks: Laravel (Eloquent ORM, Blade, Artisan), CodeIgniter

API Development: RESTful APIs, Laravel Sanctum, Passport

Database Management: MySQL

DevOps and Tools: Docker, CI/CD Pipelines

Testing: PHPUnit

Version Control: Git, GitHub, Bitbucket

Soft Skills: Team Collaboration, Problem-Solving, Mentoring

Work History

2022-02 - Current

Senior Web Developer (Team Lead)

Ashtel Design Agency, Kochi, Kerala

- Designed and developed Laravel-based web applications, ensuring scalability and performance.
- Streamlined content management processes by leveraging Laravel's Blade templating and Eloquent ORM.
- Improved deployment efficiency by implementing CI/CD pipelines tailored for Laravel projects.
- Supervised a team of developers, providing technical guidance and ensuring adherence to project timelines.
- Collaborated with cross-functional teams, ensuring seamless integration of web applications with existing software.
- Streamlined deployment processes using CI and CD pipelines, improving efficiency and reducing human error.
- Utilized Git for version control, facilitating team collaboration and tracking of project progress.

- Managed back-end services and database integration, ensuring seamless data flow and storage solutions.

2020-10 - 2024-01 Senior PHP Web Developer

Dream World Technologies, Trichy, Tamilnadu

- Mentored junior developers in adopting industry-standard practices while fostering a collaborative learning environment within the team.
- Reduced application bugs by implementing rigorous unit testing frameworks alongside comprehensive test coverage.
- Implemented continuous integration and deployment pipelines to automate code testing, validation, and deployment processes.
- Optimized web applications for speed, scalability and security.
- Planned and engineered RESTful web services to manipulate dynamic datasets.
- Worked with back-end developers to design APIs.

2016-03 - 2020-09 Junior PHP Web Developer

DOD IT Solutions, Trichy, Tamilnadu

- Developed aesthetically pleasing websites through the use of HTML, CSS, and responsive design principles.
- Oversaw technical issues and troubleshooting requests to resolve user problems.
- Provided technical support for clients experiencing issues with their websites or web applications, resolving problems efficiently.
- Enhanced site functionality by integrating APIs for social media, e-commerce, and analytics platforms.

2014-05 - 2015-12 Junior Web Developer

Techgroup GmbH, Trichy, Tamilnadu

- Streamlined data processing tasks for better user experience with well-designed database queries.
- Contributed to the successful completion of various web development projects by actively participating in planning, design, coding, and testing phases.
- Stayed up-to-date with industry trends and emerging technologies, incorporating them into projects as appropriate for continuous innovation.
- Utilized version control software such as Git to manage codebase efficiently while collaborating with team members seamlessly.

Education

2014-04 Bachelor of Science: Computer Science

Cauvery College For Women - Trichy, Tamilnadu
