PROJECTS

PB For Business

- Responsibilities include development and deployment of the corporate connect's microservices.
- Implemented and integrated third-party insurer APIs for data fetching and claims journey, ensuring a seamless experience through the corporate connect platform i.e Visit App.
- Development and integration of consultancy features via APIs into the DocPrime mobile app, ensuring a seamless user experience for expert consultations.
- Integrated data transfer from Hive to Kafka, enabling seamless data flow between microservices for real-time processing and usage.
- Developed and automated various event-based data reports using CRON scheduling, enabling timely insights and data-driven decision-making across the organization.

ACHIEVEMENTS

Awarded the scholarship named "Udyan Shalini" for excellence in academics during school time.
