SUMMARY

I am a highly motivated and detail-oriented web developer with a strong foundation in front-end and back-end technologies. With expertise in HTML, CSS, and JavaScript, I have built responsive and dynamic websites that prioritize user experience and functionality. I am proficient in using React to create seamless and interactive UIs, ensuring high performance and maintainability. In addition, I possess solid knowledge of SQL and database management, enabling me to design and implement efficient data-driven solutions. My experience in integrating front-end and back-end technologies allows me to deliver full-stack development projects that meet client needs. I am committed to continuous learning and staying up-to-date with the latest web development trends to provide innovative solutions. I thrive in collaborative environments and aim to contribute my skills to create impactful, user-centric digital experiences.

EDUCATION
