Proven ability to collaborate effectively with diverse teams while remaining independent and motivated to drive projects to completion. Committed to assisting and mentoring colleagues to foster a positive and supportive work environment. Known for adaptability, organization, and a focused approach to problem-solving. Excellent written and spoken communication skills, enabling clear and concise service delivery.

PROFESSIONAL SUMMARY:

- Total 5+ years of experience in IT Sector.
- Having 4 years of experience in the development of Robotics Process Automation (UiPath) Bots.
- Having 1 year of experience in the development of Robotics Process Automation (Automation anywhere) Bots.
- Working in Robotics Process Automation (RPA) UiPath.
- Experience with Analysis, Design, and Implementation of the processes and Understanding the Business and Technical Requirements.
- Good team player and effective communicator having exceptional interpersonal skills with extraordinary leadership qualities.
- Maintaining a very good relationship with Clients and other Stakeholders.
- Strong Problem Solving and Analytical Skills.

EXPERIENCE SUMMARY

Company	Duration	Role
Datamatics	Apr-2022 till date	RPA developer
WNS Global Services	Aug 2020 -Apr 2022	RPA developer
Hexaware	Feb 2019- July 2020	RPA developer

EDUCATION DETAILS:

Qualification	Year	University	Institute	Percentage
B.E (IT)	2018	Mumbai University	Lokmanya Tilak college of Engineering, Navi Mumbai.	CGPA: 6.75
HSC	2014	Maharashtra State Board	ICL'S College, Vashi.	58%
SSC	2012	Maharashtra State Board	R.F Naik Vidyalaya, Navi Mumbai.	74%

CERTIFICATIONS:

- UiPath Developer Certification (Level 1).
- UiPath Orchestrator Certification (Level 2).
- UiPath Advanced Developer Certification (Level 3).
- Certified Advanced Automation Anywhere.
- Certified SAP Automation.
- Certified C#.Net, Asp.Net, MVC.

TECHNICAL SKILLS:

- RPA Tool – Trubot Designer, UiPath, Automation Anywhere.
- Scripting Languages – VBScript, Macro, VBA
- Programming Languages – C#.net, HTML, CSS.
- Database – SQL Server, MySQL

PROFESSIONAL EXPERIENCE:

Project: Download files from Web portal

Client: Subscribe

Project Details:

The bot first logs into the web portal and navigates to the documents section. Upon successfully reaching the documents section, the bot validates the date range filter and applies a custom date range. It then verifies the available files on the portal and downloads them into a local folder, appending a specified date timestamp. Once all files are successfully downloaded, the bot connects to the SFTP server and uploads the files to the designated SFTP folder. After successful execution, the bot sends a summary report to the client.

- **Process Efficiency:** Streamlined development processes and implemented best practices to improve overall team efficiency and productivity.
- **Coding Standards:** Adhered to strict coding standards and guidelines to ensure code quality, readability, and maintainability.
- **Design Thinking:** Employed design thinking principles to create innovative and user-centered solutions.
- **Code Reviews:** Conducted regular code reviews to identify potential issues, improve code quality, and share knowledge within the team.

Project: New Patient registration process (EMIS)

Client: GP Automate

Project Details:

Automated the process of reading the data of patients who wanted to enroll themselves to a particular General Practitioner (GP). Then logging into a desktop application named EMIS, which is used by national healthcare system in UK and provide electronic patient records and register every patient in that application by performing certain steps and once registration is successful, automatically registered in near real time and every detail of patients gets stored in EMIS which is used further to manage hospital pharmacy and prescribing, emergency care and electronic patient records.

- **Agile Development:** Successfully implemented Agile methodologies (e.g., Scrum, Kanban) to deliver projects on time and within budget.
- **Architectural Design:** Led the design and development of [system/application] architecture, ensuring scalability, performance, and maintainability.
- **Customer Experience:** Prioritized customer satisfaction by conducting user research, gathering feedback, and incorporating insights into the product design.

USE CASES:

Qatar Airways Process:

Users will be logging into ATPCO to cross verify the uploaded data has any unsuccessful fares and that will be stored with the respective origin and Destination combination. Once the all the successful / unsuccessful fares has been validated with ATPCO, they will be distributing them by releasing the work unit.

Calculate Client Security:

The process involves generating a Security Hash Key for each client based on their personal information. This requires the use of two web-based applications. The first application contains client details, which are used to extract the Security Hash Key from the second application. Once the Security Hash Key is obtained, it is then updated in the client details section of the first application.

- **IT Security:** Implemented robust IT security measures to protect sensitive data and mitigate risks.
- **IT Security Policy:** Contributed to the development and implementation of IT security policies and procedures.

Odyssey:

Read Excel Template which is three different types (Rate loading template, move pick Template and Blue template) Insert that data into database. If in each GDS details (Amadeus, Sabre, Apollo/Galileo, word span) RAC (Rate Access code) and PCC's (pseudo-City Code) is present then insert records in database. Login into emulator. It checks the database RAC and PCCs with the Emulator. If both (RAC and PCC's) match, then update in database as True else False.

Encrypt PDF and Upload to Portal:

The goal of this process is to decrypt and extract participants data from each pdf file Post the extracted data enter those record to a webpage. URL for web page is given.The output (as per the business rules mentioned

PERSONAL DETAILS:

Name : Priyanka Jayvant Dorage
Date of Birth : 20-02-1996
Languages : English, Hindi, Marathi
