

PRIYANKADEVI S

Software Developer

E-mail : priyankadevi1005@gmail.com

Ph: +91 78689 91498

Location: India,Tamil Nadu,Coimbatore

Professional Summary

Results-oriented software developer with 7 years of experience in web application development, testing, and implementation. Skilled in both front-end and back-end technologies, with a strong focus on creating efficient and scalable solutions. Proven ability to work collaboratively in agile environments and lead projects from conception to deployment. Eager to leverage my expertise in microservices architecture and software engineering best practices to contribute to a forward-thinking team and drive innovation.

Experience

Software Developer : Billion Careers Private Limited (A Quess Corp Company)

Sep 2023- Present

- Contributed to the development of a microservices-based Human Resource Management System (HRMS), enhancing modularity and scalability.
- Actively participated in Agile methodologies, facilitating regular sprint planning, stand-ups, and retrospectives to improve team efficiency and collaboration.
- Collaborated with cross-functional teams to ensure seamless integration and delivery of features, fostering a productive team environment.
- Conducted root cause analysis for support tickets, diagnosing and resolving issues to improve user experience and system reliability.
- Analyzed support ticket issues and supported backend updates to resolve problems effectively, ensuring smooth operation.
- Generated requirement-based reports for monthly metrics on application usage, providing insights feature-wise to inform strategic decisions.
- Monitored live server performance and RDS connections to ensure stability, implementing timely actions to prevent and address server downtime.

- Provided guidance and mentorship to fellow team members, helping them understand complex scenarios and enhancing overall team knowledge.

Software Developer : Heptagon Technologies (A Quess Corp Company)

Dec 2021- Sep 2023

- Involved in the development and enhancement of microservices applications, contributing to improved functionality and user experience.
- Utilized Jenkins and GitLab for continuous integration and deployment, following production release checklist tools to ensure smooth releases.
- Conducted self and peer code reviews to maintain coding standards, leveraging tools like PHPStorm for code quality checks and documentation.
- Analyzed tasks prior to development to ensure accurate effort estimation and effective resource planning, facilitating timely project delivery.
- Collaborated closely with the QA team to ensure the delivery of bug-free features and overall product quality, streamlining the testing process.
- Ensured database structure changes and the addition of tables for new features, focusing on optimization to enhance performance and scalability.
- Integrated third-party APIs and developed APIs for external partners to ensure system data integrity, enabling seamless data exchange.
- Developed code with reusable functions, promoting efficiency and consistency across the application while simplifying future maintenance.

Software Developer : POFI Technologies

Aug 2019 - Dec 2021

- Developed the Add Listing Module to enable hosts to input property details, manage business calculations, generate invoices, and review bookings.
- Collaborated with the App Team to implement API support, ensuring seamless integration of business logic in the back-end.
- Implemented data encryption methodologies for both web and API to enhance data security and compliance.
- Responsible for task reviews, testing, and deployment, ensuring high-quality software delivery.
- Assisted junior developers in understanding application development best practices aligned with organizational standards.
- Contributed to the Inventory Management Module within the billing application, optimizing inventory tracking and billing accuracy.

Software Developer : Webnox Technologies

July 2017 -Aug 2019

- Developed a Matrimonial Application featuring key functionalities such as user search, request sending, reminders, and automated match notifications via email and SMS. Additionally, created a comprehensive admin module for user management and oversight.
- Actively participated in all phases of the Software Development Life Cycle (SDLC), including client requirements gathering, database design, development, unit testing, and deployment.
- Integrated third-party applications such as Mailchimp, ActiveCampaign, and Stripe, enhancing the application's capabilities and gaining valuable experience in coding fundamentals and logic development.

Qualification

Education

M.Sc Computer Science, PSG College of Arts and Science, Coimbatore,2015-2017

Certifications

Angular - The Complete Guide, March 2024

Skills

Languages: PHP, Javascript

DB: MySQL, PostgreSQL

Frameworks: CodeIgniter, Laravel, Angular

Front-end: HTML, CSS, Bootstrap, jQuery

CMS: Wordpress customization, Shopify customization

Tools: Jenkins, Git, SVN, FileZilla, Putty, MobaXterm

Cloud Services: AWS,S3,EC2,SQS

Other: Docker, Microservices Architecture, RESTful APIs

Languages

English and Tamil : Fluent (Read, Write, Speak)

Declaration

I hereby declare that the information provided in this resume is accurate and complete to the best of my knowledge. I accept responsibility for the correctness of the details mentioned.
