SUMMARY

Experienced Software Development Engineer (SDE-I) with over 3 years of professional expertise, currently working at Ajmera Infotech Private Limited. I specialize in developing web applications using React.js, JavaScript, HTML, CSS, and Material UI. My skill set includes managing tasks, conducting code reviews, enhancing UI/UX, and optimizing performance. I also have a solid background in building interactive websites with Webflow and using Git for seamless version control.

EXPERIENCE

Software Development Engineer (SDE-I)

Ajmera Infotech Private Limited

February 2024 - Present, Bangalore, India

- **Web Application Development:** Built and maintained responsive, user-friendly web applications using React.js, Material UI, Tailwind CSS, HTML, CSS, and JavaScript.
- **Task Management & Code Quality:** Efficiently handled issue and task tickets, conducted code reviews, and mentored junior developers to ensure high-quality, timely code delivery.
- **UI/UX Improvement:** Enhanced user interfaces with Material UI focusing on aesthetics and usability for a seamless user experience.
- **Webflow Projects:** Designed and developed interactive, visually appealing websites using Webflow's no-code platform for custom solutions.
- **Performance Optimization & Version Control:** Implemented performance optimization techniques and managed code versions using Git for efficient and fast web application functionality.
- **API Integration & Third-Party Services:** Integrated RESTful APIs and third-party services to enhance web applications, ensuring seamless data communication between frontend and backend systems.

Frontend Developer

Neptune Information Solutions Private Limited

November 2021 - February 2024, Bangalore, India

- **E-commerce Platform Development:** Built a comprehensive e-commerce platform using React.js, JavaScript, HTML, CSS, and Material UI, featuring user authentication, API integration, dynamic UI, and full CRUD functionalities.
- **Frontend & Backend Integration:** Combined various frontend technologies to create a seamless and user-friendly shopping experience, demonstrating expertise in frontend development and backend data integration.
- **Responsive Web Application Design:** Developed responsive web applications using React.js and Redux, improving user engagement by 30% through enhanced UI/UX designs and seamless cross-platform functionality.
- **Performance Optimization:** Implemented lazy loading, image optimization, and code-splitting techniques, reducing page load times by 40%, and significantly enhancing the overall shopping experience.
- **Reusable Component Library:** Developed a reusable component library using React.js and Material UI, streamlining development and maintaining design consistency across multiple sections of the platform.
- **Search & Filtering Enhancements:** Built advanced search and filtering functionalities, allowing users to easily navigate and find products, resulting in a 20% increase in product discovery.

EDUCATION

Bachelor of Engineering

Lakshmi Narayan College Of Technology • Indore, Madhya Pradesh • 2019
