## Career Objective

Software Developer with **One year of experience**, skilled in **Python, Django REST APIs, and database management and deployment**. Actively seeking opportunities to apply my expertise in building **efficient, secure, and scalable applications** while contributing to a dynamic team's success.

## Work Experience ( 1+ year)

Software Developer | Daski Career Management LLP (CareerWale)  
February, 2024 – Present | Bengaluru

- **Developed and deployed** RESTful APIs (Django REST, PostgreSQL) for admin and partner panels on **Linux EC2 servers with RDS (PostgreSQL)**, improving data efficiency by **40%** through optimized queries and caching.
- **Boosted system performance by 30%** by refactoring legacy code and fine-tuning **PostgreSQL operations** for scalability.
- **Worked with** teams like **QA, product, and frontend to build** features using Agile, helping finish tasks faster by solving problems quickly.
- Enhanced team productivity by **20%** through technical documentation and mentorship on API best practices.

## Technical Skills

- **Languages:** Python, JavaScript, HTML, CSS
- **Technologies/Frameworks:** Django REST Framework (DRF), React JS
- **Cloud & DevOps:** AWS EC2, AWS RDS, ALB, Route 53, Docker
- **Databases:** Oracle SQL, PostgreSQL
- **Operating Systems:** Linux
- **Tools:** Git, GitHub, Postman, Microsoft Excel

## Projects

### CDP Support Chatbot (Customer Data Platform)

- Developed an **AI-powered chatbot using Django** to provide support for Customer Data Platforms (CDPs) like Segment, mParticle, Lytics, and Zeotap, enabling accurate query-based responses.
- Implemented **TF-IDF for document retrieval**, enhancing the chatbot's ability to fetch relevant information from CDP documentation.
- Designed a **caching mechanism to optimize data acquisition and minimize redundant crawling**, improving response efficiency.

### Student Registration and Authentication System (SRAS)

- Designed and developed a **Student Registration and Authentication System (SRAS)** using **Django REST Framework** and **PostgreSQL**, providing a robust backend architecture.
- Implemented **JWT-based authentication** to ensure **secure access control**, protecting user data and restricting unauthorized access.
- Developed a **user-friendly registration and login process**, enhancing security, usability, and system performance for seamless user interaction.

## Education

### Bachelor of Computer Applications (B.C.A)

Veer Narmad South Gujarat University

Oct. 2021– Apr. 2024 | **CGPA - 8.5/10.00**

## Certifications

Python Full Stack Development – **JSpiders, Bangalore**

Python Course: Mastering Essentials – **Scaler** | [Link](#)

SQL (Advanced) – **HackerRank** | [Link](#)
