Education

Bachelor of Science <i>Dr Rammanohar Lohia Awadh University</i>	2016-2020 Ayodhya
Senior Secondary <i>Aditya Birla Public School</i>	2014-2016 Amethi
High School <i>Aditya Birla Public School</i>	2012-2014 Amethi

Experience

Cognizant Technology Solutions

Senior System Engineer

Jul 2023 – Till Date

- Implemented user **authentication** and **authorization** functionality, basic security measures Django applications, including **CSRF protection**, secure password handling, and **HTTPS configuration** for Pharmaceutical company.
- Implemented scalable solutions to optimize database performance, reducing query times by **30%** and enhancing overall system efficiency.
- Led the integration of cutting-edge technologies and best practices into development processes, ensuring alignment with industry trends.

Cognizant Technology Solutions

System Engineer

Jul 2022 – July 2023

- Collaborated with product managers and stakeholders to capture requirements and formulate technical specifications for new features and system enhancements.
- Conducted thorough code reviews and provided actionable feedback, promoting high standards of code quality and continuous improvement.
- Stayed up to date with emerging technologies and industry trends, incorporating best practices and innovative solutions into development processes.

Projects

Student Management System | Python, Django, DjangoRestFramework, MySQL, HTML

- Developed a back-end application to manage student records and marks using **model relationships**.
- Implemented custom teacher authentication for modifying marks and student data.
- Created forms for data retrieval and storage after validation.
- API implementation - Enabled **CRUD** operations through API implementation.

Blog Application | Python, Django, HTML, CSS

- Built a back-end application for creating blog posts using the **MVT architecture**.
- Managed **static files** and implemented URL routing.
- Allowed users to create posts in various categories and comment on them.

Skills

Languages: Python, C++, HTML

Technologies and Framework: Django, ReST, Django REST Framework, RESTful APIs, Flask, Oracle SQL, MySQL

Developer Tools: Git, VS Code, PyCharm

Soft Skills: Problem-solving, Teamwork, Communication, Adaptability, Leadership

Certifications

- [Introduction to Programming Using Python – Udemy](#)
- [The Complete Oracle SQL Bootcamp \(2022\) – Udemy](#)
