www.linkedin.com/in/sourav-kumar-108

PERSONAL PROFILE

Skilled in Python, Flask, PostgreSQL, **Backend-Development, and Data Science** with a passion for building scalable and reliable applications. Preferably looking for opportunities in **Bangalore, Gurugram, Noida, Hyderabad and Mumbai.**

CORE COMPETENCIES

- Backend Developer
- Software Development
- Data Science
- Data Visualization
- ML Model Development
- Data Mining & Insights
- Data Analytics

SOFT SKILLS

- Quick-learner
- Self-Motivated
- Hard-Working
- Collaborator
- Team-oriented
- Leadership
- Positive Attitude

TECHNICAL SKILLS

- Python, Flask, Django
- Docker
- C, C++, Java
- SQL(MySQL, PostgreSQL), Oracle
- Git
- MongoDB
- Linux
- Cloud Computing (OpenStack, AWS)
- Data Structure and Algorithms (Array, LL, Stacks, Queues, Trees, Graph)
- Tensorflow, Pandas, Numpy
- CNN, OpenCV
- Machine Learning, Deep Learning
- Blockchain, Web3, Smart Contract

EDUCATION

2021-2021: PG-Diploma in Big Data Analytics

from C-DAC, KP Bangalore

2017-2020: Master of Computer Application from Ranchi University, Jharkhand (72.18%)

2014-2017: BSc. Computer Application Hons. from Vinoba Bhawe University, Jharkhand (69.75%)

PROFILE SUMMARY

- A focused professional **with over 2+ years of experience** as **Back-end Developer** within the **Information Technology industry.**
- Recently employed as a **Software Engineer** at **Delixus Inc. / CLOUD1 SOFTWARE INDIA PVT. LTD,** leveraging practical proficiency in **Python, Flask, Blockchain, and Data Science.**
- Dedicate to leveraging Python libraries like Pandas, Numpy, Seaborn, Matplotlib, etc. for efficient data analysis and decision-making support.
- Possess a strong foundation in **data science and machine learning**; utilized ML concepts for data analysis and visualization.
- Skilled in gender-wise face counting and detection **using image processing, TensorFlow, OpenCV, and Numpy, showcasing expertise in advanced technologies for innovative projects.**

WORK EXPERIENCE

Dec'21 – Feb'24 | Software Engineer | Delixus Inc. / Cloud1 Software India PVT. LTD, Bangalore

Blockchainsentry Project

Key Result Areas:

- Leading the implementation of **RESTful APIs** and their seamless integration with **PostgreSQL Database** to ensure optimal system performance and data management.
- Developing an **Ethereum-based Vulnerability Management System** that scans and pinpoints vulnerabilities in Smart Contracts and provides guidance on remedial actions.
- Utilizing ML concepts to calculate the average time of a scan, involving comprehensive data preparation, model selection, training, evaluation, and parameter tuning which enhanced accuracy and efficiency.
- Evaluating the effectiveness and accuracy of the data sources and provided timely communications on significant issues and developments.
- Link - <https://blockchainsentry.com/>

Ford Project:

- Employed Python, Numpy, Pandas to effectively filter data from datasets that enhanced data accuracy and relevance.

Landmark Detection Project:

- Developed a system to detect landmarks in images and provide descriptive information about them.

Technology/Features: *Python, Tensorflow, pandas, Numpy*

PROJECTS

Gender-wise Face Counting and Detection | Oct'21 – Nov'21

Key Result Areas:

- Utilized Python, Tensorflow, OpenCV, and Numpy for image processing, the system detects and counts faces, determined bounding boxes based on coordinates within various image areas, enabling accurate computation of the number of faces.

Virtual Shopping Mall | Mar'20 – May'20

Key Result Areas:

- Developed a Python and Django-based application that enabled customers to virtually shop from a mall, make purchases online with secure payment options from the comfort of their homes.

PERSONAL DETAILS

Date of Birth: 4th March 1996

Languages Known: English, Hindi

Address: Rampur, Chouparan, Hazaribagh, Jharkhand, 825406
