

VINAY NELLORE

:+91 9550821458

: vinaynellore2000@gmail.com

Professional Summary:

3 yrs. of experience working as RPA Developer.

- **Well versed** with **UiPath** and **Blue Prism** process automations.
- Completed portal foundation certifications of both **UiPath** and **Blue prism**.
- Involved in **end-end** process automation life cycle starting from **BRD** preparation to **post production support**.
- Good at designing **Loader** and **Worker** bots to support **Multi bot** architecture using **RE Framework**.
- **Queue** implementation, Assets, Package creation, **Report** generation using Queue data and **Orchestration**.
- Excellent **debugging** skills and Exception handling techniques.
- Developed custom code modules using **Python/C#.NET** and integrated them with **RPA** tools.
- RPA Technical documentation like **SDD, PDD, OHB, Deployment plan document, User Manual** and other documents.
- Practiced and involved in **Agile** development methodology & RPA Best Practices.
- **SQL** queries, HTML, CSS and DBMS.

Professional Experience:

- **Working as Professional RPA at Vestas Wind Technology since December 2023.**
- **Worked as Software Engineer at Synergist software solutions Pvt ltd from June 2022 to December 2023.**

Technical Skills:

- | | | |
|-------------------------|---|--------------------------------|
| • Primary Skills | : | UiPath, Blue Prism, SQL |
| • Programming Languages | : | Basics of C#.Net and Python |
| • Ticketing Tool | : | ADO, Jira |
| • Version Control | : | Git Hub |

Project Profile:

Project Title: Parked & Blocked Invoice Process

Designation : Professional RPA

Client : Vestas

Tool used : BluePrism, ADO

Roles : **Bot Creation** – Stakeholder Engagement, Documentation (PDD & SDD), Designing, Develop, Test, Deploy, Monitoring, Scheduling and report generation.

Project Description: This project is to find the exact parking reasons of Invoices, process the Invoices based on parking reason and finally post the valid Invoices in SAP.

Despatcher:

Business will be placing PMO File (Excel file which contains Parked Invoice Reference data from various Vendors like MAERSK, DSV, DHL, TNT & Titan) in Shared Drive, bot will pick the excel and load the excel data into Queue. Before loading the data, will validate the excel for required Columns, if any required column is missing in excel then bot will send a mail to Business, even if excel is missing in shared Drive.

Performer:

With the reference of Invoice numbers, first will download all Invoices from SAP in a shared folder. Once all the Invoices are downloaded then we will open each invoice and extract required fields from invoice, insert the extracted data into SQL Table. Business will be uploading the Vestas Material Rate Sheet data into SQL through excel macro.

Along with these data bot will upload various reports data from SAP into SQL like PO & FO reports etc.... Once all data uploaded then bot will start validating Invoice Rates Vs Vestas Rates and find Parking reason for all Invoices. There is total 63 Parking reasons, based on reason bot will process the Invoice and post all valid Invoices in SAP.

Report Generation:

In this Process we're sharing two different reports to business team from bot end.

- Invoice Data Extraction Phase1 Report, after completing the data extraction of all invoice's bot will send this report. Here Invoice data extraction is completely based on the Invoice format. If any new/Untrained format comes into the dump, bot can't extract the invoice data for untrained format it will through a Business Exception and Business team will manually process those new/untrained Invoices.
- Invoice Parking Reasons report which is Phase2 Report. This report contains how many invoices get posted and no of invoices are Price mismatch etc.....

Project Profile:

Project Title : GL Transaction Reconciliation

Designation : RPA Developer

Client : US Based Bank

Tool used : UiPath, Jira

Roles : **Bot Creation** - Develop, Test, Deploy, Monitoring, scheduling and report generation.

Project Description: This project is to eliminate manual validation of GL transaction data presented in **Urban Web** application for individual records, creating a screenshot of the same to upload it to the **DocUpload** for further review. This process has two web applications involved. Urban Web application is a reporting tool for various finance data sources including GL balances, GL transactions. DocUpload is a document management tool that provides a secure, single repository for the legal organization and sharing of electronic documents.

Loader bot picks the input excel from shared drive and loads the Matter ID's to the queue. Worked bot gets the transactions one by one. For each transaction, bot searches in Urban Web for its GL transaction details and validates the business rules. Once, validation is completed, bot generates PDF file with all necessary fields and uploads them in DocUpload application against the same Matter ID.

Academic Profile:

- **Bachelor of Technology** with Specialization in **EEE** from **RMD Engineering College**, Chennai from **2018-2022** with **85%**.
- **Intermediate** from **Narayana Jr College**, Nellore from **2016-2018** with **96.9%**.
- **SSC** from **Teja high School**, Sullurpet in **2016** with **8.7 GPA**.

Strengths:

- Good at **Programming** and **logical thinking**.
- Maintaining good **inter-personal** relationship.
- Burning desire in **learning** & determination to complete the work.
- **Positive attitude** & Enthusiastic in teamwork.
- Having team handling capability by working as a part of team & constant **focus** on team goals.
- **Honest, sincere & hard worker** with a high level of integrity.

Achievements:

- Infosys Springboard Python Course Completion Certificate.
- RPA Developer foundations certifications from UiPath and Blue Prism portals.
- AWS DBMS Certificate.
- AWS SQL Certificate.
- Skill Rack Advanced Python Programmer Certificate.

Personal Profile:

Name	:	VINAY N
Father's name	:	BAPOOJI N
Date of Birth	:	06-12-2000
Gender	:	Male
Languages Known	:	English, Tamil, Telugu
Hobbies	:	Listening to Music, Playing Cricket

Declaration:

I hereby declare that the information furnished above is true to the best of my knowledge

Place: Chennai.
