SUMMARY — A recent graduate proficient in Python, JavaScript, HTML, CSS, SQL, and C++ . Hands-on experience in web development, machine learning, and database management. Proven ability to develop user-friendly applications and innovative solutions through advanced projects and internships. Committed to continuous learning and professional growth, with strong problem-solving skills and technical proficiency

EDUCATION

Nitte Meenakshi Institute of Technology

2020 - 2024

Bachelor of Engineering in Electronics and Communication

CGPA: 7.74

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, Java, C++

Courseworks: Git/Github, Computer Networking, DBMS

Other Skills: Data Structures and Algorithms (DSA),
Object-Oriented Programming (OOP)

Developer Tools: Visual Studio Code, PyCharm, Jupyter
Notebook, Ubuntu, Cadence

INTERNSHIP

Python Programming Intern at Oasis infobyte

Feb 2024

Skills: Operating with python libraries

- Developed an advanced voice assistant with natural language processing capabilities.
- Created a graphical BMI calculator with a user-friendly interface (GUI) using libraries like Tkinter or PyQt.
- Designed an advanced password generator with a graphical user interface (GUI) using Tkinter or PyQt.
- Crafted an advanced chat application with a graphical user interface (GUI) using Tkinter, PyQt, or a web framework.
- Engineered a graphical weather app with a user-friendly interface (GUI) using libraries like Tkinter or PyQt.

PROJECTS

Diabetic Retinopathy Detection Using CNNs in Python

Aug 2023 - Feb 2024

Skills: Python, Flask, Digital Image Processing, Machine Learning(CNNs)

- Developed a CNN-based Diabetic Retinopathy Detection model using Inception v3, achieving an accuracy of 89 percent on a dataset of approximately 9,000 retinal fundus images.
- Implemented comprehensive evaluation metrics, including precision, recall, and accuracy, to ensure robust model performance.
- Created a web interface with HTML, CSS, and JavaScript, facilitating user interaction for image uploads and result visualization.

CSV data integration and user friendly table setup

May 2023 - Jul 2023

Skills: Database Management System(DBMS), Structured Query Language(SQL)

- Designed and implemented a comprehensive database schema for storing financial data from the Annual Enterprise Survey, creating 2 tables: FinancialData and Industries.
- Developed and executed SQL scripts to create, populate, and manage database tables, ensuring efficient organization and integrity of over 9,000 financial records.
- Enhanced data analysis capabilities by writing and optimizing SQL queries, facilitating the extraction of meaningful insights from 10 distinct financial variables and over 20 industry codes.

TradeTide: Budget-Friendly Stock Picks

Feb 2023 - Apr 2023

Skills: HTML, CSS, JavaScript, API

- Developed a dynamic Stock Price Suggestor web application utilizing HTML, CSS, and JavaScript.
- Integrated Alpha Vantage API for real-time retrieval of stock prices from over 20 top companies, ensuring accuracy in suggesting stock purchases that utilize 95 percent or more of the user's specified budget.
- Designed a responsive, user-friendly form, increasing user engagement by 20 percent.

ACHIVEMENTS

- Elevated "Python coders" instagram account to 10k Followers upon posting python expertise
- Solved 100+ Leetcode problems which includes difficulty level in easy, medium and hard
