- English (Fluent)
- Hindi (Fluent)
- Telugu (Native)

HOBBIES

- Coding
- Exploring AI Tools
- Photography & Editing

PROFESSIONAL SUMMARY

Application Developer with over 2 years of experience in an MNC, skilled in C# development. Proficient in creating robust applications and Delivering the high paced apps. Currently expanding my expertise in AI and ML to integrate these technologies into future projects. Passionate about continuous learning and innovation.

WORK EXPERIENCE

APPLICATION DEVELOPER | NOV 2021 - JUL 2023 INFOSYS

- Developed enhancements for existing applications, ensuring improved functionality and user experience.
- Managed software update deployments, resolved user-reported incidents and problems, and ensured smooth operation in production and QA environments.
- Analyzed usage reports and implemented solutions to optimize application performance and user experience.

FULL STACK DEVELOPER JOURNEY – DEVELOPED SPA(SINGLE PAGE APPLICATION) - 2024

- C# full stack following Agile scrum. Designed Postgre database and used microservice architecture to achieve scalability. Used Toolkit along with react for intuitive UX and material theme for designing UI

ACADAMIC PROJECTS

ELECTRONIC DOG USING C PROGRAMMING - 2021

- Developed an Electronic Dog system to provide signals about unknown sources using RFID technology. The system identifies sources via RFID and incorporates a moving mechanism driven by DC motors and applied inputs. Implemented the project using C programming.

ACCOMPLISHMENTS

- Recognized by leadership for creating C# solutions that improved system efficiency.
- Developed a sub-application within the main project that performed well and was appreciated by the project manager.

CERTIFICATIONS

- Coursera Certified C# programming
- Techgig Certified Backend Developer
- Frontend Web Development - Linkedin Learning
