SUMMARY

Experienced Data Analyst with 1+ year of experience in data analysis and modeling, proficient in SQL, Python, MS Excel, Power BI, and ETL pipelines. Skilled in trend identification, visualization, and ensuring data accuracy. Collaborative team player with strong communication skills. Well-versed in version control, DevOps, and Azure services. Excited to drive data-driven solutions with efficiency and quality.

EDUCATION

Sri Krishna Institute of Technology

Bachelor of Engineering (E.C.E) CGPA 6.2
2016 — 2021

Narayana Junior Collage

PUC (MPC) CGPA 9.1
2014 — 2016

Ravindra Bharathi High School

SSC CGPA 8.2
2013 — 2014

SKILLS

- SQL
- Google sheet
- PYTHON
- MS EXCEL
- POWER BI
- AZURE DATABRICKS
- ETL PIPELINES
- MS SQL Server
- GIT

CERTIFICATION

- Azure Data Analyst Associate

Languages

- English
- Kannada
- Telugu

PROFESSIONAL EXPERIENCE

Data Analyst

Flipkart Internet Private Limited

Sep 2024 – Dec 2024

Roles And responsibility:

- Leveraged SQL to extract raw data from source systems, transformed it into structured formats, and maintained data trackers to support detailed analysis and reporting.
- Designed and managed event tracking systems, forecasting view share and click-through ratios with real-time updates for major events, like Big Billion Days and Big Diwali sales, to meet targeted GMV.
- Collaborated with cross-functional teams to enhance tracking accuracy, align metrics with strategic goals, and optimize event performance analytics.

Trainee Decision Scientist

Mu Sigma Company | Nov 2022 – July 2023

Projects

IPM (Investment Performance Management):

- Performed comprehensive analysis on over 3 million rows of historical sales and production data to develop a detailed client-facing dashboard.
- Enabled seamless monitoring of production, sales, raw materials, and safety stock through accurate data extraction, cleaning, and transformation from multiple sources.
- Leveraged Azure services, particularly Databricks, to enhance data analysis and visualization, ensuring the accuracy and reliability of insights.

Data Foundation

- Led the strategic development of valuable data assets within the Data Foundation project, supporting data-driven decision-making.
- Utilized Azure Databricks to collect, transform, and enrich data from diverse sources, ensuring high-quality and actionable datasets.
- Executed end-to-end data processing, from data gathering to refinement, enhancing the robustness and usability of data assets for business insights.
