

ROSHITH BRITTO

Business Analyst – IT | +91- 7022438562 | roshithbritto7@gmail.com | [linkedin.com/in/roshithbritto](https://www.linkedin.com/in/roshithbritto)

PROFILE SUMMARY

Highly motivated and detail-oriented Business Analyst with experience in leading HR technology initiatives for enterprise-scale organizations. Skilled in requirement elicitation, business process analysis, and delivering scalable solutions using Agile and Scrum frameworks under SDLC. Proven ability to craft comprehensive user stories and acceptance criteria, translate business objectives into BRD, SRS, wireframes, and prototypes, and drive sprint planning and backlog refinement.

Currently spearheading HR digital transformation at Muthoot Group, overseeing HCM, ATS, PMS, TA-DA and LMS implementations for 50,000+ employees across 10 verticals. Demonstrated proficiency in stakeholder management, UAT coordination, gap analysis, and root cause analysis, while leveraging tools such as Open Project, Figma, Lucid chart and Looker studio to deliver data-driven insights.

AREAS OF EXPERTISE

- Requirements Gathering – BRD, SRS, Change Requests (CR)
- Project management Tools – JIRA, Open Project, Bugzilla
- Prototyping, Wireframes & Process flows – Figma, Balsamiq, Visio, Lucid chart
- Data Visualization & Reporting – Power BI, Looker Studio
- User Acceptance Testing (UAT)
- SQL, Microsoft Office (Excel, Word, PowerPoint)
- HCM / HRMS Technologies – PMS, TA-DA, Leave & Attendance, Payroll, LMS, Cessation, Core HR
- Recruitment Platforms – ATS, Talent Management, Career Portal, Onboarding, BGV Portal

PROFESSIONAL EXPERIENCE

Muthoot Group

Business Analyst - HRIT (April 2024 – Present)

- Managed the **HRMS platform** for over 50,000 employees across 10 verticals, working directly with Group Directors and the GM IT and GM HR to drive system improvements and alignment with business goals.
- Oversaw and executed **change requests** for critical HRMS modules including Attendance, TA-DA, Performance Management, Leave, Payroll, and other core HR functions.
- Conducted requirement gathering through surveys, questionnaires and workshop to understand the user needs
- Delivered interactive **module demonstrations** to stakeholders.
- Prepared comprehensive **BRD** and **SRS** documents; applied MoSCoW prioritization techniques to facilitate sprint planning and backlog refinement.
- Authored detailed **User Stories** and defined **Acceptance Criteria** to support iterative development; managed **product backlogs** and **sprint deliverables**.
- Designed intuitive **UI prototypes, wireframes, and process workflows** using **Figma, Draw.IO, and Lucid chart**, improving user experience across HRMS and ATS platforms.
- Led the complete evaluation and implementation of a new **Applicant Tracking System (ATS)** with **integration** to Core HCM, Core banking software, Referral Portal, IJP, BGV, CRIF, and LMS, ensuring seamless data exchange.

- Leveraged **Agile methodology** and facilitated regular **Scrum meetings** to enhance collaboration and transparency, resulting in a 20% reduction in **Software Development Life Cycle (SDLC) time** and improved overall team efficiency.
- Designed and presented executive-level dashboards and project performance reports using **Looker Studio**, enhancing data-driven decision-making.

Brio Technologies

Business Consultant (June 2023 – March 2024)

- Facilitated requirement elicitation, translating into **BRD**, and collaborated with technical team to prepare **Software Requirement Specifications (SRS)**.
- Created user stories and Acceptance criteria in **JIRA** tool.
- Developed prototypes and wireframes via **Figma** and **Balsamiq**, facilitating stakeholder walkthroughs and approvals and presales activities.
- Configured and integrated HRMS solutions with enterprise systems, ensuring seamless alignment of process and workflows to meet HR policies and enhance data accuracy.
- Designed the dashboard and project reports using **Power BI**.
- Investigated and resolved HRMS-related issues in collaboration with IT teams, resulting in reduced system downtime and timely resolutions.
- Conducted extensive training for HR and recruitment teams on **HRMS** software usage, troubleshooting, and continuous support.

Paysquare Consultancy Ltd

Business Development Manager (April 2022 – Dec 2022)

- Collaborated with HR stakeholders to gather requirements and create detailed BRD and SRS documentation.
- Translated HRMS requirements into detailed **user stories using Agile methodologies**.
- Configured and customized HRMS software to enhance HR operational efficiency.
- Coordinated for **UAT** and provided end-user training to ensure smooth go-live.
- Provided first-level HRMS support for internal queries, including payroll and HR functions.

Acumen Infinite Solutions

Business development Manager (Aug 2020-Dec2021)

- Created detailed Business Requirement Document and user centric design Prototypes
- Conducted comprehensive workshops, optimizing business processes for enhanced efficiency
- Led teams for UAT testing, ensuring high-quality project deliverables and resolution of backlogs.
- Facilitated frequent status meetings, product demos, and stakeholder reviews for alignment among Stakeholders

HiCare Services Pvt Ltd.

Territory Sales Manager (Nov 2019 - June2020)
