SUMMARY

Junior Cloud and Infra Engineer with 2.8 years of experience in managing DevOps tools, AWS infrastructure, and automating CI/CD pipelines. Skilled in troubleshooting production issues and optimizing cloud environments for performance and scalability.

TOOLS SKILL SET

- Amazon Web Services
- Putty, PuttyGen, VS Code
- Shell scripting, YAML
- Git, GitHub, Jenkins
- Docker container tool, Kubernetes
- Azure Boards
- AWS Services - EC2 Instance, VPC, IAM, ECS, Cloud Formation, RDS, S3, Route53, Elastic Load Balancing, Auto-Scaling, SNS, Cloud Watch, KMS Services, AWS ELK.
- Linux (RedHat), ITIL, Jira, ServiceNow

PROFESSIONAL EXPERIENCE

LTIMindtree:

August 2022 – December 2023, Bangalore

Randstad India Private Ltd:

April 2021 – August 2022, Bangalore

(Deputed to MINDTREE LIMITED in the capacity of associate)

Position: Junior Cloud and Infrastructure Engineer

Project: Harris Associates (Trading Company, Sep 2022 – Dec 2023)

Roles and Responsibilities

- Managed key DevOps tools including **Git, Jenkins, and Docker**, optimizing workflows and infrastructure.
- Designed and implemented Jenkins-based **CI/CD** pipelines, automating end-to-end processes to minimize deployment errors
- Installed and configured Git and **GitHub**, creating a seamless source control management workflow
- Developed and integrated Docker files with Jenkins using **shell scripting** for streamlined deployments.
- Automated GitHub webhooks with Python, generating **Jira** tickets based on developer comments, enhancing issue tracking and collaboration.
- Provided critical on-call support, conducting root cause analysis and resolving incidents through Jira and **ServiceNow**.
- Collaborated with cross-functional teams in an **Agile** environment, ensuring successful project delivery.
- Quickly identified and resolved server and network issues, demonstrating strong troubleshooting skills.
- Worked closely with IT support teams to troubleshoot network-related issues.

Project: Pinebridge (Investments Company, May 2021 – Aug 2022)

Roles and Responsibilities

- Managed AWS services including **VPC, EC2, RDS, S3, Auto Scaling, and Elastic Load Balancing**, optimizing cloud infrastructure and scalability.
- Architected solutions using Amazon VPC, **subnets, routing tables, internet gateways, and security groups** for secure and efficient network design.
- Deployed applications using Elastic Load Balancers and **Auto Scaling Groups** to distribute traffic and ensure high availability.
- Created and managed **AMIs, snapshots, and volumes**, as well as optimized AWS resources (CPU, memory, EBS) based on workload demands.
- Configured **DHCP** and **DNS** to ensure consistent and reliable network services across environments.
- Installed and configured Linux OS and additional packages using **RPM** and **YUM** for efficient software management.
- Performed advanced troubleshooting for complex production issues related to system configurations and deployments.
- Built distributed systems leveraging AWS cloud platforms to enhance performance and reliability.
- Implemented CI/CD pipelines using Jenkins, automating build, test, and deployment processes, integrated with GitHub for version control.
- Proficient in user administration, password policies, and permissions, ensuring system security and controlled access.

CERTIFICATIONS

- Microsoft Azure fundamentals certification AZ-900 (2022)
- DevOps, Linux & AWS Solutions Architect training program from Besant Technologies.

APPRECIATIONS & ACHIEVEMENTS

- Recognized as Employee of the Month (June 2023) for exceptional collaboration with the IT team, resolving a critical production issue over 12 hours and successfully restoring server operations.
- Deployed a highly available application stack on AWS using EC2 Auto Scaling Groups, leading to a 20% increase in customer engagement by optimizing scalability and availability.
- Received commendation for resolving critical AWS VPC peering issues, ensuring seamless network connectivity for the development team.
- Designed and developed a final year project, "Facial Emotion Recognition using Deep Neural Networks," demonstrating expertise in AI and machine learning techniques.

EDUCATION

- MCA from University of Mysore, Mysore with 7.2 CGPA (2017-2020)
- B.C.A from SDM College, Ujire with 6.5 CGPA (2014-2017)
- Pre-University Course(12th) from St. Josephs's PU College, Chickmagalur (2014)
- SSLC from Model English High School, Chickmagalur (2012)
