Career Objective

Seeking a challenging role that will utilize my knowledge and technical skills in an efficient way which would augment my professional growth and would also help the organization in achieving its goals.

Technical Skills

CLOUD TECHNOLOGIES : - Microsoft Azure

CONFIGURATION MANAGEMENT: - Terraform

CI/CD TOOLS: - Azure DevOps (YML)

SCRIPTING LANGUAGE: - Shell Scripting (Basic)

VERSION CONTROL: - GIT, GitHub / Azure Repo

INTEGRATED DEVELOPMENT ENVIRONMENT: - VSCode

Project Details

Organization: Neudesic Technologies Pvt Ltd.

Insurance Company (For Terraform Module Development)

May 2022 – Feb 2023.

Project involved developing Azure Infra modules via terraform and then Test / deploying the same via Pipeline.

Deployed pipeline for insurance modules for refining the unstructured data by using Azure data factory Pipelines.

Converting the existing bicep infra into Internal Terraform Infra pattern and used other modules to Deploy the infra like app service, compute clusters & Cognitive services.

Role: Azure Cloud Infra, Terraform & DevOps Support Engineer

Responsibilities: Azure Infra Management & Monitoring& DevOps support, Management of Azure DevOps projects, pipelines, artifacts and environments for automated deployment and release process.

Azure Infra Module development via Terraform and testing the same via ADO pipeline.

Environment: Azure, ADO, Terraform

Internal Initiative (for Terraform, Basic Shell Script)

An Internal Project to automate code test for Service line. Here in this Initiative I have worked as a Azure cloud engineer. This Initiative is involved in deploying Azure Infra modules via terraform and Power shell

Role: Azure Cloud Infra, Terraform & Power shell (Basic)

Responsibilities: Azure Infra Management, deploying the resources via Terraform and testing the same by giving the necessary details.

Environment: Azure, ADO, Terraform

Internal Initiative

An Internal Project to automate code test for Service line. Here in this Initiative I have worked as a Azure cloud engineer. This Initiative is involved in deploying Azure Infrastructure.

Roles and Responsibilities:

- Worked on building/configuring the new servers in Azure Cloud.
- Worked on Process oriented and technical oriented tickets based on client requirement.
- Worked on Service Now ticketing tool.
- Worked on building/configuring the new servers in Windows.
- Worked on System Maintenance activities.
- Worked on troubleshooting system and server errors.

Daily Activities:

- Worked on maintaining backups of servers in Azure.
- Worked on windows VM provisioning in Azure.
- Hands-on experience on azure VM cloning.
- Hands-on experience on azure VM resizing.
- Hands-on experience Azure snapshot maintenance.
- Hands-on experience on azure pricing calculator.
- Hands-on experience on azure cost management.
- Hands-on experience on creating network interface cards/ IP address and also have experience on replacing IP address for a VM in azure.
- Hands-on experience on creating Availability sets and maintaining servers to avoid issues.
- Hands-on experience in enabling DR for a virtual machine using ASR.
- Hands-on experience in maintaining RBAC roles.
- Hands-on experience in Azure Monitoring.
- Hands-on experience in validating and analyzing logs.
- Worked on VM restore, Disk restore & File Recovery in Azure.
- Controlling the files & folder access in windows VM.

- Hands-on experience on Update Management and creating deployment schedules.
- Zipping, unzipping of files in Windows server.
- Handling disks and NFS shares.
- Monitoring the performance of the servers and resolving issues.
- Worked on Service Now tool for incidents/catalog/change requests handling.
- Installing software, patching, upgrading and maintenance of OS.

Education Details

Bachelor of Technology in Electronics and Communications Engineering

Certifications

Az-900 Microsoft Azure Fundamentals

Az-104 Microsoft Administrator Associate

Declaration

I hereby declare that the information furnished above is true to the best of my knowledge and belief.
