PROFESSIONAL SUMMARY

Accomplished IT professional with over 3 years of experience in software development. Successfully managed an IT software development, delivering projects across eCommerce, ERP systems, and dynamic websites. Expertise in PHP, Laravel, CodeIgniter, MySQL, JavaScript, AJAX, and jQuery. Proven ability to mentor teams, solve complex technical challenges, and manage full project lifecycles. Now seeking a role to leverage my technical and managerial skills in a dynamic organization.

EDUCATION

Shri Guru Gobind Singhji Institute of Engineering and Technology, Nanded (2019 - Aug 2021)

Master of Technology (MTech)

Major in Computer science; Minors in computer network and information security; Cumulative CGPA: 7.98/10;

Relevant coursework: AI, ML, Advanced Operating Systems, Networks, Advanced Computer Algorithms;

Swami Ramanand Teerth Marathwada University, Nanded (2015 - July 2019)

Bachelor of Engineering (BE), MGM's COE, Nanded.

Major in Information technology; Cumulative CGPA: 7.63/10;

Relevant coursework: OS, data structures and algorithms in c, java, OOPs with C++, RDBMS, Python Programming, Data mining, Perl Programming, Cloud computing, etc;

Maharashtra State Board of Technical Education (2012 - June 2015)

Diploma, Gramin Polytechnic College, Nanded.

Major in Computer Engineering; Percentage: 70.88%;

WORK EXPERIENCE

Securelayer7 technologies Pvt. Ltd. June 2018 - July 2018

Intern

- It was a one-month internship program where I was trained in HTML, CSS, JavaScript, and PHP. I was given a project of my choice to complete within the deadline using the CodeIgniter framework in PHP.

PROFESSIONAL EXPERIENCE

Solution Touch

Full Stack Developer— [Dates: Sept. 2021 – till]

- Project Management: Led a team of developers to deliver over 35 successful projects, overseeing the entire development lifecycle from initial scoping and requirements gathering to final deployment and support.
- Full-Stack Development: Hands-on in coding and developing web applications using PHP, Laravel, CodeIgniter, and JavaScript. Managed both frontend and backend development.
- Team Leadership: Hired, trained, and mentored junior developers, fostering a collaborative work environment and improving the team's productivity by 10%.
- Key Achievements: Increased company revenue by 25% in 1 years, and successfully launched a dynamic ERP system for a leading educational institution.
- Implementing RESTful APIs, integrating third-party services like Shiprocket, Razorpay, and PhonePe, and optimizing applications for speed and scalability.
- Client-Focused Solutions: Worked independently with a variety of clients, providing tailored web development solutions. Created customized websites and applications that met unique business needs.
- Technologies: Specialized in PHP (Laravel, CodeIgniter), JavaScript, AJAX, and MySQL. Built dynamic and responsive websites, ensuring smooth user experience across all platforms.
- Project Highlights:
 - I've been working as a web application developer for 3 years across various domains, including eLearning (video lectures, assignments, MCQ tests with multi-language support), Ecommerce (single vendor, multi-vendor), and dynamic websites (college, school, blogging, news).
 - I also have experience in educational institute management (student admission, fees collection, results, next class admission, feedback, E-document generation) and restaurant billing systems.
- Collaboration & Communication: Worked closely with clients to define project requirements, deliver regular updates, and ensure satisfaction with final deliverables.

UNIVERSITY PROJECT

A web-based intelligent report e-learning system using data mining techniques (MTech)

- Improved the LMS by enhancing courses with data mining and machine learning techniques, predicting behaviour patterns, increasing interactivity, visualizing results, and enabling real-time data analysis.

Mgm's exam planner (BE)

- It is a web-based application that handles exam duration activities, generates exam timetables, and automates seating arrangements and invigilation.
