EXPERIENCE

AMAZON | ML DATA ASSOCIATE

April 2024 – Sep 2024 | Bangalore

- I gained hands on experience in, model training and quality control for machine learning robotic project.
- I was responsible for reviewing video footage captured by robotic camera when the system was uncertain about the content.
- The role involved in improving the decision-making capabilities if the robotic cameras, ensuring the future autonomous actions were more accurate and efficient.

SKILLS IN DETAILS

- Python: Proficient in data analysis, machine learning, library and automation scripting.
- Tableau: Skilled in creating interactive dashboards and data visualization.
- SQL: Experienced in querying and managing relational databases.
- Machine Learning: Hands-on experience in training models, feature engineering, and evaluation.
- Data Preprocessing: Expertise in data cleaning, transformation, and visualization.
- Excel: Using Pivot Table Data Cleaning and creating interactive charts

PROJECTS

AN AI POWERED NETWORK THREAT DETECTION SYSTEM

Jan 2022 – May 2023

- The Objective of the project is to detect the threat by using 52 features
- We extract collection of datasets to understand the possible ways of attacks can be done by attackers.
- Finally by using all the features we implement and extract the output as prevention layer for the end user by giving a intimation with the level of attack and type of attack.

COURSEWORK

DATA SCIENCE | CUVETTE

- Python for Data Science: Focused on data manipulation, machine learning, and automation.
- SQL for Data Analysis: Learned querying, data extraction, and relational database management.
- Excel for Data Management: Acquired skills in data cleaning, pivot tables, and advanced formulas.
- Tableau: Developed expertise in creating interactive dashboards and visualizing complex data.
- Machine Learning with Python: Gained Experience in Python libraries, and algorithms

EDUCATION

DON BOSCO INSTITUTE OF TECHNOLOGY

BACHELOR OF COMPUTER SCIENCE

2019-2023 | Bangalore

CGPA: 6.9

SRI CHAITANYA

PRE-UNIVERSITY

2016-2019 | Bangalore

SKILLS

Excel
Tableau
SQL
Python
Power BI
Machine Learning
Data Visualization

LANGUAGES

Python • SQL

DEVELOPER TOOLS

Jupyter • Android Studio

SOFT SKILLS

Communication
Problem Solving
Time Management
Analytical Skills
Adaptability

CERTIFICATION

Data Visualization with power BI
Data Analytics Essential
python for Beginners
