

SUMMARY

data driven data scientist expertise in machine learning, NLP, and deep learning Skilled in statistical analysis, predictive modeling, and data manipulation proficient in Python language. Collaborative team player passionate about leveraging data to drive informed decision-making. Seeking opportunities to apply Python driven model building skills in a data science role.

PROJECTS

1- E-Commerce Chatbot Using RASA and LLM Integration with Deployment

- **Description:** Developed a conversational AI chatbot designed to manage product inquiries, order tracking, and customer support in the e-commerce sector.
- **Technologies Used:** RASA NLU, Langchain, GPT-3, Python, Flask, AWS, Docker, MongoDB, REST API.

2- Advanced Credit Risk Prediction System with Deployment

- **project description :** Built an advanced credit risk prediction system utilizing deep learning and explainable AI to improve decision-making in the financial sector.
- **Technologies used:** Python, Numpy, Pandas, XGBoost, Random Forest, LSTM, SHAP, LIME, and Flask.

3- Telecom Customer Churn Prediction and Deployment

- **Description:** Built a churn prediction model for telecom, allowing proactive measures to retain high-risk customers.
- **Technologies:** Python, Flask, AWS, Machine Learning, Data Preprocessing, Model Evaluation, Data Visualization.

SKILLS SUMMARY

Programming Languages

Python, SQL (ORACLE), R language.

Software tools and platform

Anaconda, Jupyter, Spyder, Github, Flask, Google Colab, Azur ML, AWS, Docker, MongoDB, MS Power point, Ms Excel, ORACLE19c, TABLEAU.

Machine Learning Techniques & NLP

Data Exploration & Analysis, Statistics and Probability, Data Modelling, Regression, Classification, SHAP, LIME Regularization, Cluster Analysis, CrossValidation. Tokenization, Stemming, Lemmatization, Stopwords, Parts of speech (POS), BOW (Bag of word), TFIDF, word2vec, NLP. Web Scraping, Element Tree, Beautiful Soup. RASA, NLU, Langchain, GPT3,

Deep Learning & Artificial Intelligence techniques

Deep Learning & Artificial Intelligence techniques : ANN (Artificial Neural Networks), CNN (Convolution Neural Networks), RNN (Recurrent Neural Networks), LSTM(Long shortterm memory), Speech Recognition, Backpropagation, Time Series, Computer vision.

EDUCATION

B-TECH (ECE)

Malla Reddy College of Engineering (JNTUH) . Mar 2022

Maisammaguda, Hyderabad (Telangana).

DIPLOMA (ECE)

Sri KS Raju Institute of Tchnology and Science (SBTET). *May 2018*

Moinabad, Hyderabad (Telangana). Completed in 2018

SSC

ZP High School Boys NO-2 Parigi of Ranga Reddy District

Parigi, (Telangana).

CERTIFICATION

Full Stack Data Science and AI

NASCOM CERTIFIED Data Scientist

PYTHON

NASCOM CERTIFIED Python developer

HOBBIES

Travelling & Photo Graphy

Team sports

Writing / blogging

Programming

LANGUAGES

English

.Hindi
