### Career Objective

Motivated MCA graduate, bringing 1.9 years of experience as a Software Engineer. Enthusiastic about embracing new technologies and eager to master innovative methodologies and processes.

My primary goal is to thrive in an environment that allows me to leverage my talents and skills, contributing to company growth while seeking a challenging position that fosters professional development.

### Work Experience

**Centre for Smart Governance - Software Developer**  
*Unified University Collage Management System (UUCMS)*

**Sept 2022 - Present**

- Working on Asp .Net MVC in Entity Framework, Open-source web technologies and SQL Server.
- Collaborated with Senior Developer to develop custom code from the ground up for projects, such as UUCMS, under the Higher Education Authority of the Karnataka Government.
- Proficient in working as an application developer involving the software development, unit and integration testing, debugging, performance benchmarking.
- Improved user interfaces by enhancing menus to be more intuitive.

### Internships & Projects

**Product Development Intern at Greenbots Software India Private Limited – Intern**

- Worked with Senior Developer to write code from scratch for clients such as CCTT and Uphaar Foods.
- Developed using HTML, CSS, Bootstrap and Angular to enhance functionality and user experience.
- Participated on weekly Tech team meetings to discuss current and future projects and strategies on how to produce efficient work. Edited existing codes to improve browser compatibility and mobile responsiveness.

**THE E-MEDICAL - Academic Project**

E-medical is an online medical store is an online website, exclusive for all types of medicines, and e-medical facilitates buying medicine online by sitting at home with exclusive discounts and offers. The main goal of this website is to deliver suitable medicine for customers.

- Developed the entire front-end of the application.
- Developed the back-end connectivity using MYSQL.
