SUMMARY

Recent B.E graduate with a strong foundation in software engineering principles and hands-on experience through academic projects. Proficient in multiple programming languages including C, C++, Java, Python. Eager to leverage academic knowledge and passion for coding to develop innovative solutions while growing as a software engineer.

SKILLS

Programming Skills	: Java, C, C++, Python, Embedded C , SQL
Automation Skills	: RPA, UI Path, RE Frame Work
Tools	: VS Code, UI Path Studio, Code Blocks, Ubuntu
Soft Skills	: Critical Thinking, Problem Solving, Logical Reasoning

WORK EXPERIENCE

Intern, Indras Academy, Bengaluru, India	Aug 2024 - Sep 2024
- Excel Automation: Designed and implemented automated Excel reporting system. - PDF Automation: Skilled in handling both digital and scanned PDFs, extracting and processing data efficiently. Web Data - Extraction: Leveraged UiPath's proactive and result-oriented approach to develop RPA solutions that address complex data extraction challenges. - Workflow Development and Testing: Designed, developed, and rigorously tested automation workflows to ensure accuracy and reliability. - BOT Deployment: Successfully deployed automated bots into production environments, optimizing operational efficiency.	

PROJECTS

Gesture controlled wheel chair, , Academic, Belagavi, India	Mar 2024 - May 2024
- The gesture-controlled wheelchair is a ground-breaking assistive technology that enables individuals with mobility impairments to navigate their surroundings using intuitive hand movements. - It uses sensors, cameras, or wearable devices to detect and interpret specific hand movements and gestures, allowing users to perform various wheelchair. - The advantages of gesture- controlled wheelchairs extend beyond improved accessibility, as they promote a sense of empowerment, independence, and dignity for users, reduce the cognitive load associated with operating traditional control interfaces, and enable customization and personalization.	
Customer Relation Management (UI Path), , Indra's Academy, Bengaluru, India	Sep 2024 - Oct 2024
- Efficiently accessed CRM Application Utilized CRM API to retrieve and process customer data. - Data Extraction and Validation Employed input files containing CANs to identify and extract relevant account information. Accurate Data Transfer Copied specific data elements from CRM accounts, ensuring data integrity and consistency. - Automated Output Generation Created structured output files summarizing extracted data for further analysis or processing.	

EDUCATION

KLE Dr M S Sheshgiri College of Engineering, Belagavi, India - B E, Electricals and Electronics - GPA: 7.4	2020 - 2024
Banajawad Residential PU College, Athani, India - PUC, PCMB - GPA: 85.35	2018 - 2020
Athani Vidya Vardhak School, Athani, India - GPA: 90.40	2017 - 2018

DECLARATION

I hereby declare that the details and information given above are complete and true to the best of my knowledge.
