Professional Summary:

An accomplished and result-oriented professional with 3.10+ years of experience in IT Industry, as SRE/DevOps Engineer with hands-on experience supporting, Automating, and optimizing mission critical deployments in production server & cloud. Building, Deploying, Source code management, leveraging configuration management, CI/CD, and DevOps processes.

TECHNICAL SKILLS:

SRE/DevOps-

CI/CD Tool	Jenkins, Azure DevOps
Monitoring Tool	Grafana, Prometheus
Troubleshooting Skill	DNS, TCP/IP, DHCP, Networking
Container Management Tool	Azure Kubernetes Service, Kubernetes
Source Code Management	Git
IAC Tools	Terraform
Scripting & Coding Language	Python
Containerization Tool	Docker, Kubernetes
Cloud Platform	Azure Cloud
Security Tools	OWASP Dependency Check
Knowledge Management Tool	Confluence
Build Tool	Maven, NodeJS(Basics)
Operating System	Windows, Linux
Ticketing Tool	JIRA

WORK EXPERIENCE:

HCL Technology India Limited

Jan 2021 - Present

Designation: Member Technical Staff

- Deployment to AKS (azure Kubernetes service)
- Monitoring infrastructure and applications
- Experience in monitoring systems with different monitoring tools.
- Operational duties for our cloud based products and Incident resolution.
- Network troubleshooting skills including TCP/IP, DNS etc.
- Make sure HCL services remain up and running.
- Responsible for maintaining health of entire services - infra, application, DB, and network.
- Experience in creating continuous integration & continuous deployment pipelines from scratch
- Good hands-on experience in Docker files and docker images
- Integrate various tools across CI/CD stages such as Nexus, SonarQube, and Git as per requirement
- Using Maven for building applications
- Performed security checks for vulnerabilities on source code using OWASP Dependency checks
- Experience in creating CI/CD Pipelines in Azure DevOps
- Artifacts management using Azure artifacts in Azure DevOps
- Basic knowledge of Python
- Used Terraform for Infrastructure provisioning and resource creation
- Created & worked on AKS Cluster

PROJECTS:

Project 1	Fiserv
Organization	HCL Tech
Tools & Technology Used	Jenkins, Git, SonarQube, Nexus, Grafana, Linux, JIRA, Confluence, Docker
Role	SRE/DevOps Engineer
Responsibilities	-Build continuous integration & continuous deployment pipeline using Jenkins -Writing Docker files for docker images to be used for application deployment -Manage source code repository using GIT -Deployments using Argo CD -Integrate Code quality tools like SonarQube -Integrating security analysis tools like OWASP Dependency check -Integrating Nexus3 tool for Artifact management -Creating a dashboard using Grafana for monitoring -Prepare high level documentation explaining Installation & Configuration. -Support engagements to fix P1 issues during critical deliveries/releases -Creating Gitlab webhooks for automating Jenkins jobs -Using JIRA tool for ticket tracking -Mentoring freshers/new joiners in team.

Project 2	Barracuda Corp
Organization	HCL Tech
Tools & Technology Used	Azure DevOps, Terraform, Maven, Azure artifacts, Azure Functions, AKS Cluster
Role	SRE/DevOps Engineer
Responsibilities	-Creation of a new CI/CD pipeline from scratch in Azure DevOps -Deployments to AKS -Azure Infrastructure Management -Using maven for building the projects -Managing artifacts using Azure Artifacts -Using Terraform to provision resources -Integration of tools like SonarQube, OWASP Dependency Check -Adding Linux VM as an agent for running pipelines -Creating and managing AKS Cluster in Azure -Provisioning Azure VMs Using Terraform

Project 3	Eaton
Organization	HCL Tech
Tools & Technology Used	Azure DevOps, Terraform, Maven, Azure artifacts, Azure Functions, AKS Cluster
Role	SRE/DevOps Engineer
Responsibilities	-Creation of a new CI/CD pipeline from scratch in Azure DevOps -Deployments to AKS -Azure Infrastructure Management -Using maven for building the projects -Managing artifacts using Azure Artifacts

	-Using Terraform to provision resources -Integration of tools like SonarQube, OWASP Dependency Check -Adding Linux VM as an agent for running pipelines -Creating and managing AKS Cluster in Azure -Provisioning Azure VMs Using Terraform
--	---

Certifications & Awards:

Certifications-

- **AZ-900** Azure Fundamentals
- **AZ-104** Azure Administrator Associate

Awards-

- **Customer Delight** -> Received for doing multiple POCs and getting good feedback, appreciation from engagements
- **Hero Of the Cluster** -> Received for good work performance in the project

EDUCATION:

• B. Tech (C.S.E) From People’s University , Bhopal (M.P.)	75.4%	2019
• Diploma (C.S.E) From Monad University , Hapur (U.P)	75.5%	2016
• 10 th From G&H High School (CBSE Board)	6.4 CGPA	2013
