SUMMARY

Driven and results-oriented RPA developer with a passion for leveraging automation technologies to streamline processes and drive operational efficiency. Pursuing AI/ML and holding a Python for Data Science certification from IBM. Seeking a challenging role in a forward-thinking company where I can apply my skills in Power Automate, UiPath, SQL, and QA Automation to contribute to the company's success while continuing to learn and grow professionally.

SKILLS

Power Automate Desktop and Cloud
UiPath
SQL basics
RPA Genie
Python for Data Science
QA Automation

EXPERIENCE

Sr. RPA Developer

Claysys Technologies PVT LTD Jun 2023 - Present

RPA Developer

Claysys Technologies PVT LTD Jun 2021 - May 2023

PROJECTS

1. Add and Remove Stop Check Payment

RPA Developer *Aug 2021 - Nov 2021*

Implemented a solution where stop check payment requests are processed by adding or removing them in the background application as per the customer's request

2. Card Replace Process

RPA Developer *Dec 2021 - Sep 2022*

Developed an automated process to handle card replacement requests. Added necessary details to the background application and facilitated the replacement of cards for customers.

3. Banking site QA Automation

RPA Developer *Oct 2022 - Dec 2022*

This was an internal project for the QA automation of a banking site **RPA Genie**.

4. QA Automation

RPA Developer *Jan 2023 - May 2023*

Internal project for QA of sites developed by Claysys developers, using **RPA Genie**.

5. Model Template Creation

Sr. RPA Developer *May 2023 - Aug 2023*

Utilizing **Microsoft Power Automate Desktop**, an automated process was developed to generate over 250 files per execution. Monthly templates were crafted for various Credit Unions by integrating data from previous periods. These templates serve as a resource for credit unions, enabling them to efficiently update their current quarter data.

6. Batch PDF File Creation Card

RPA Developer *Sep 2023 - Jan 2024*

Automation using Microsoft **Power Automate**, **Power BI**, and **SharePoint**. Generated reports from Power BI with **Power Automate Desktop** and **Power Automate Cloud**. Uploaded reports to SharePoint after necessary changes. Automated over 1000 files.

7. Internal Portal Automation

Sr. RPA Developer *Jan 2024 - Present*

Reviewing Code of juniors and giving required guidance.

EDUCATION

Professional Certificate Program in Generative AI and Machine Learning

Simplylearn Feb 2024 - Present

MCA

IGNOU Jan 2009 - Jan 2016

BSc Mathematics

M G University Jul 2005 - Mar 2008
