Professional Summary

Results-driven professional with 5 years of experience, including 4 years in Mechanical Engineering and 1 year in Data Analytics. Skilled in creating KPI reports, analyzing data to uncover performance gaps, and improving operational efficiency. Proficient in developing interactive dashboards with dynamic visualizations for enhanced decision-making. Strong collaboration skills, with experience refining reports based on feedback and delivering business solutions. Demonstrates precision in data analysis, quality verification, and technical documentation.

Technical Skills

Languages and Databases: Python, Pandas, Numpy, SQL, MySQL

Visualization Tools: Power BI, Tableau

Other Skills: Advanced Excel, Business Analysis, Data Analysis, Statistical Analysis

Work Experience

L&T Technology Service, Bengaluru, India
Senior Engineer

September 2021 - November 2024

- Analyzed and managed design data for automobile part development to meet customer specifications, demonstrating attention to detail and data interpretation skills.
- Delivering KPI Reports for the hub, focusing on metrics like On-Time Delivery and First-Time Right.
- Coordinated cross-functional efforts with Chinese stakeholders to develop and implement a project timeline that reduced project delivery time by **15%**; enhanced overall project completion rates and team cohesion.
- Conducted quality verification and inspection of module and part label drawings, applying rigorous data validation and quality control techniques.

Sonar Casting Limited, Andal, India
Project Coordinator & Chinese Interpreter

September 2020 - August 2021

- Led a project to set up a vertical molding machine production line, coordinating project timelines, resource allocation, and quality standards, showcasing strong project management and data tracking skills.
- Oversaw the installation and commissioning of machinery, ensuring compliance with technical specifications and operational requirements.
- Managed import documentation for machinery from China, maintaining meticulous records to ensure smooth logistics and regulatory adherence.
- Translated complex technical documents from Chinese to English, enhancing communication accuracy for cross-functional teams.
- Supported machine-specific maintenance activities, reinforcing attention to detail and problem-solving skills.

Holoflex Limited, Kolkata, India
Chinese Interpreter

September 2018 - August 2019

- Acted as a Chinese interpreter during machine installation and commissioning, facilitating clear communication between teams to ensure project success and technical accuracy.
- Translated technical documents from Chinese to English, enhancing information accessibility and accuracy across cross-functional teams.

Analytics Projects

Swiggy Sales Insights

September 2024 - October 2024

Tool Used: MySQL

- **Analyzed restaurant ratings** to understand customer satisfaction levels across key cities like Mumbai, leading to a **20%** improvement in customer retention strategies.
- **Identified top-performing restaurants** were contributing the most to Swiggy's revenue, optimizing partner selection and increasing revenue from high-contributing restaurants by **15%**.
- **Ranked the top 5 highest-rated restaurants**, providing Swiggy with key insights to foster better partnerships, resulting in a **10% increase** in restaurant collaboration and promotions.

Tool Used: Power BI, Power Query, Data Modelling, and Cleaning

- **Developed an end-to-end Power BI dashboard** to optimize ITC Hotels' revenue, leading to a **20%** improvement in monitoring KPIs like occupancy rates and room revenue.
- **Created engaging and interactive visualizations** to enable stakeholders to identify revenue growth opportunities, reducing decision-making time by 15%.
- **Delivered data-driven insights** that optimized room pricing strategies, driving a **10%** increase in average revenue per available room (RevPAR).

Tool Used: Excel

- **Performed comprehensive data analysis** of Myntra's apparel sales data using Excel, identifying key sales trends and customer preferences, leading to a **15%** improvement in targeted marketing strategies.
- **Utilized advanced Excel functions** (VLOOKUP, Pivot Tables, and Power Query) to organize and analyze large datasets, improving reporting accuracy and reducing manual work by **10%**.
- **Optimized data accuracy** through data cleaning techniques in Excel, resolving inconsistencies and improving reporting reliability by **15%**.

Education

Maharishi Dayanand University (MDU)	2014 – 2017
B.Tech - Mechanical	Rohtak, Haryana
Santiniketan Polytechnic College	2011 – 2014
Diploma - Mechanical	Bolpur, West Bengal

Certifications

- Data Analytics Certification Course from WsCube Tech
- Udemy SQL for Data Analysis Certified
- Udemy Python for Data Analysis & Visualization Certified
- Udemy Power BI for Data Analysis & Visualization Certified
- Google Data Analytics Certified
