## Profile

I am a certified RPA professional skilled in UiPath Studio, Automation Anywhere, SAP Build Automation, SAP GUI Scripting, and VBScript, also holding certifications in Microsoft Azure. My experience includes Full stack Java and SAP Material Management (MM), enabling me to deliver efficient solutions, and enhance data accuracy. I have hands-on expertise in developing and implementing robotic process automation solutions using UiPath, Automation Anywhere and SAP build process automation. I strive to deliver innovative solutions that meet evolving client needs.

## Work experience:

Company Name - Cognizant / Role - Programmer Analyst

Utilized the Automation and GenAI tools to create both attended and unattended bots, addressing various use cases and enhancing automation across different scenarios.

## EMPLOYMENT HISTORY

1. **SAP Material Management (MM)** - I have worked as SAP MM consultant, expertising in Master data management, Material Requirement Planning, MM-FI Integration, MM SD integration, Pricing Procedure configuration, Stock Transfer (STO), Inventory Management, Sourcing and Procurement.
2. **Oracle Migration Automation** – Worked with UiPath and VB scripting to automate different instances of Oracle mainly Cash Management and efficiently implemented bots to reduce manual labour by up to 90%.
3. **Brownfield conversion for S4 Hana Migration (BCX) using Generative AI:** Implemented BCX bot to remediate ATC checks in ABAP codes automatically for several clients using UiPath, GitHub Co-pilot, Python, VB scripting, SAP SUI scripting etc. Worked extensively on prompt engineering and explored various GenAI available like Microsoft co-pilot, Gemini, SAP Joule etc. Automated VS-Code and Eclipse IDEs. Got Appreciated by the leadership for the efforts and as a result the 74% ATC checks were resolved and the manual effort was reduced by 5 person weeks.
4. **Retrofitting Automation from ECC to S4 Hana:** Implemented the retrofitting bot to automatically update new business logic to the ABAP Files that is added in ECC to S4 Hana.
5. **BRD to Code Generation:** Implemented the bot to automatically generate TDDs, ABAP codes and Test cases from the Business Requirement document using GitHub co-pilot and properly format them in documents.

## CERTIFICATIONS

- UiPath certified RPA developer associate (UiRPA)
- RPA Advanced Developer Certification
- SAP Automation, Testing, and Discovery with UiPath
- RPA Developer Foundation
- Building Resilient Bots Using Automation 360

- Microsoft Certified: Azure Fundamentals [AZ-900]
- Microsoft Certified: Azure AI Fundamentals [AI-900]
- Microsoft Certified: Azure Data Fundamentals [DP-900]
- Microsoft Certified: Security, Compliance, and Identity Fundamentals [SC-900]
- Google Cloud Transformer Models and BERT Model
- Google Cloud Platform Certified: Cloud Digital Leader (GCP-CDL)

## EDUCATION

- **Institute of Engineering and Management**  
Degree Name - Bachelor of Technology (2018-2022) CGPA-8.56
- **. Howrah Vivekananda Institution**  
Degree Name - Higher Secondary Education (2016-2018) Marks-87%

## SKILLS

- ✓ C, C++, C#, Python, Java, HTML, CSS, Bootstrap.
- ✓ UiPath(VB), Automation Anywhere, SAP build IRPA.
- ✓ DBMS, Data Structure.
- ✓ Javascript, VBscript, Python.
- ✓ UiPath Specifications (Classic and Modern): RE-Framework, Exception handling, Excel Handling, UiPath testing automation, UiPath SAP automation, Document Understanding, AI center. ✓  
Automation Anywhere
- ✓ SAP BTP Irpa, SAP Build Applications, SAP Joule.
- ✓ GitHub Co-pilot, Microsoft Co-pilot, Gemini, Joule, ChatGPT.

## HOBBIES

- ❖ Programming
- ❖ Problem solving
- ❖ Digital Arts and Calligraphy
- ❖ Listening Audiobooks.
