SKILLS

- Languages: Python, ReactJS,
- Spark concept: PySpark
- Amazon Web Services: Codebuild, DynamoDB, Glue, Athena, Simple Storage Service (S3), Step Function, SNS, Cloudwatch, Virtual Private Cloud (VPC), Lambda, Elastic Compute Cloud (EC2), IAM
- Big Data Concepts: Apache Spark, Databricks, Snowflake
- Pipeline Tool: Jenkins
- Programming: Data Structure, Algorithms
- Developer Tools: Visual Studio Code, Jira Board, Bitbucket, Docker, Slack
- Technologies/Frameworks: Git, Terraform
- Communication and team collaboration

EXPERIENCE

DATA ENGINEER ANALYST at Accenture

2021.January-present

- ◇ Building, deploying, and maintaining data infrastructure end to end.
- ◇ Experience in AWS services like Code build, Dynamo DB, Glue, Athena, S3, EMR, Step functions, Lambda, Cloudwatch, VPC.
- ◇ Designing, implementing, and maintaining data ingestion processes.
- ◇ Development of code using Python, PySpark
- ◇ Worked on the Ansible playbooks, Terraform
- ◇ Learn, develop, and contribute towards Data Engineering best practices
- ◇ Worked on Google Cloud Platform(GCP) Services.
- ◇ Designing and developing scalable Bigdata ETL pipeline around AWS provided solutions.
- ◇ Deployment and monitoring in production
- ◇ Extract Load Transfer (ELT) pipelines to clean and merge the data with continuous improvement.
- ◇ Collaborate with team members on technical aspects.
- ◇ Building trust and a safe environment with an emphasis on problem solving.

EDUCATION

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE. Jaipur Engineering College and Research Centre. Marks: 75.4 percentage **2016-2020**

TRAINING AND PROJECTS

COGNITIVE ROBOTIC PROCESS AUTOMATION | Mr. Vimal Daga.
May 2019 - June 2019

- ◇ Automated a legacy product using Industry modernization approaches in MNCs which reduced 90 percent Efforts (Cost + Manual) reduction .
- ◇ Technology Stacks: Ansible Playbooks, Docker, Facial Recognition, Amazon EC2, Amazon IAM, Amazon S3, MFA,Hadoop

AUTOSHOPS | Mr. Vimal Daga **May 2019 - Sep 2019**

- ◇ Work closely with shops to conduct insightful, ad-hoc analyses to investigate ongoing or one-time product issues.
- ◇ Technology Stacks: SQL, Red Hat Linux, IoT, Splunk

LEADERSHIP / EXTRACURRICULAR

Google Machine Learning Facilitator | Jaipur Engineering College and Research Centre .
Aug. 2018-Sep 2018

Member of Code Docs Community | Jaipur Engineering College and Research Centre
Nov. 2018

Startup and Business Hackathon | Jaipur Engineering College and Research Centre
Sep. 2019

Project Mentor at GirlScript | Jaipur Engineering College and Research Centre
