

SANGBED CHAKRABORTY

Mobile: (+91) 9007760740 | Email : sangbedc@gmail.com

OBJECTIVE

Analytical, strategic, and goal-oriented IT professional with over 13 years of experience and a proven track-record of leading organizations to achieve and exceed business objectives. Expertise includes delivering and supporting robust IT infrastructure solutions, demonstrating strong leadership skills in mentoring teams, and fostering cross-functional collaboration across diverse domains and geographies.

WORK EXPERIENCE

IT ANALYST | TATA CONSULTANCY SERVICES | FROM NOV 2015 – TILL DATE

RESPONSIBILITIES

- **Microsoft Azure and Entra ID**

Extensive experience with Microsoft Azure cloud services, encompassing planning, designing, and migrating environments from on-premises to cloud-based setups. Proficient in configuring and maintaining virtual machines, storage accounts, resource groups, networks, and optimizing VM sizes. Additionally skilled in Microsoft Entra ID, adept at managing user access and authentication to ensure secure and efficient user management across various systems and applications.

- **Server Provisioning**

Created VM templates from the VM console for new company formations, ensuring thorough server provisioning with resource allocation, security compliance checks, and installation of the latest patches prior to client handover. Utilized the Beyond Trust Retina tool for server compliance reporting and conducted troubleshooting activities to resolve issues efficiently.

- **Site Appliance Migration (Hyper-V Method)**

Managed outage times with different sites for migrating site appliances, including backup and migration of printer configurations, scheduled tasks, and data using scripts and robocopy commands. Successfully disabled Directory File Services (DFS) on the old server, activated DFS roles on the new server, and managed NetBIOS name changes. Ensured DNS alias updates, verified printer and DFS functionality, and executed DHCP scope migrations via Netsh (Network Shell) commands. Monitored closely and communicated effectively with sites to minimize production impact during the migration process.

- **Microsoft Identity Management**

Managed IDM (Identity Manager) operations including creating and updating employee/contractor accounts in Active Directory (AD), assigning and revoking entitlements, updating manager details, extending contractor accounts, providing delegation access, maintaining IDM mailbox workflows, creating shared mailboxes, generating service accounts, troubleshooting approval incidents, and preparing reports using Gromut tool to monitor pending ticket and SLA statuses.

- **BMC Remedy**

Proficient in using BMC Remedy for logging and documenting incidents, reviewing and following upon open tickets, handling user modification requests, representing the team in Change Advisory Board (CAB) meetings, preparing reports, and providing excellent call quality and customer service.

- **ServiceNow**

Efficient in using ServiceNow to monitor incident and service task statuses daily, act on critical incidents, maintain SLA compliance, handle change tickets, streamline work processes with ServiceNow queries, manage databases, and create reports as needed.

WORK EXPERIENCE

SYSTEM ADMINISTRATOR | ITC INFOTECH INDIA LIMITED | SEPT 2010 – NOV 2015

RESPONSIBILITIES

- **Active Directory**

Skilled in managing Active Directory across the enterprise, including user and group management, permission delegation, policy implementation, and conducting health checks of domain controllers. Experienced in DC promotion and demotion, server upgrades, Read-Only Domain Controller management, user count reporting with DS Query and PowerShell, AD server backups, security log management, DNS structure maintenance, wireless authentication via Radius/NPS, WSUS patch management, DHCP server authorization, and managing DELL Open Manage Server Administration, DELL Quest Change Auditor, and ADFS for single sign-on.
