OBJECTIVE

Test Engineer with 2.5 years of experience in manual and automated testing of mainframes, UI, Android applications. Seeking a challenging role in an organization where I can leverage my testing skills and knowledge of software development to ensure the delivery of high quality software products.

EXPERIENCE

Test Engineer
Infosys Ltd

Oct 2021 - present
Trivandrum

- Performing Manual and automated testing on the application in various testing cycles.
- Member of Agile team and working closely with Product Managers, business analysts, Ops Team and dev team to understand the product requirements, backlogs, and user stories.
- Documenting detailed test scenarios, Test Cases and test scripts derived from defined business requirements and supported the QA manager to coordinate test plans across multiple parties.
- Defect Reporting and Tracking using defect management tools.
- Developed SQL queries to perform backend testing of the database.
- Performed functional, GUI, API, regression testing, User Acceptance and End-to-End testing.
- Achieved 80% Automation Coverage by automating manual test cases.
