SUMMARY

I am seeking an opportunity to kick start my career as a java Developer and contribute to innovative projects, or an opportunity to work on real-world projects, I am eager to apply my skills and grow as a versatile developer.

EDUCATION

B.E., Computer Science Engineering

Nehru Institute of Engineering and Technology
Coimbatore, Tamil Nadu

August 2019 - June 2023
7.02 CGPA

TECHNICAL SKILLS

Programming Languages: Java, SQL, HTML, CSS

Development Tools: Eclipse IDE, Spring Suite Tool, VS Code, Postman, MySQL

INTERNSHIP

Java Full Stack Intern - Kodnest Technologies, Bengaluru

September 2023 –Present

- Worked closely with a team of developers to assist in the development and maintenance of Web application.
- Participated in the design and implementation of front-end features using HTML, CSS and JavaScript.
- Gained hands-on experience with back-end technology using Java

Web Development Intern – Kaashiv Info Tech, Chennai

March 2022 – April 2022

- Designed and developed a personal portfolio website using HTML, CSS, and Bootstrap.
- Incorporated responsive design principles to ensure compatibility across various devices.
- Integrated JavaScript for interactive elements and smooth user experience.

ACADEMIC PROJECTS

First Aid Application

Developed with a motive to provide clear instructions in an easy format Appended location services along with user friendly interface

- Developed and maintained Java-based applications for emergency response systems, incorporating real-time data processing and analysis to aid first responders.
- Collaborated with cross-functional teams to design and implement robust and scalable solutions for emergency management.

IOT Gas Pipeline Leakage Detector Insect robot

Collaborated within a dynamic team to conceptualize and design an innovative IoT Gas Pipeline Leakage Detector Insect robot for detecting gas pipeline leakage in underground.

- Developed and implemented IoT-based gas pipeline leakage detection system using sensors and actuators controlled by a microcontroller.
- Designed and fabricated insect-inspired robot capable of navigating through complex pipeline networks for efficient leakage detection.

KEY STRENGTHS

- Easily adaptable to new people and surroundings.
- Time Management.
- Ability to work with a group commitment.
- Hard working and team builder.

OTHER ACTIVITIES & HOBBIES

- Gym
- Travelling
- Sports and Physical Activities
- Listening to music
