- Developed APIs related to Child Management Module.
- Design and Developed Chat Module with Group Chat Functionality independently.
- Developed UI Screens in Angular for Admin Module.
- Worked with Mobile Team for API's Changes and integration.

**Environment:** Java 8, Spring Boot, Spring Data JPA, Stripe Payment Gateway, AWS S3, Web Socket, MapStruct, Maven, Flyway, Jenkins, MySQL, Angular 8

**July-2019 - Feb-2020** - Software Engineer, 2000K Solutions

**Customer:** Hotel management

**Project:** Hotel Booking admin developed for booking hotel rooms. It has many features like VIP Booking etc.

**Team Size:** 4 Developers, 1 Tester, 1 Project Manager

**Project Role:** Team Member

**Tasks performed:**

- Bug Fixing related Booking Service.
- Explored AWS lambda and API Gateway.
- Developed export functionality for Report module.

**Environment:** Java 7/ 8, Spring, Struts, Hibernate, Ant, MySQL, JSP, JavaScript

**Mar-2019 - Jun-2019** - Software Engineer, Protocolzone Pvt Ltd

**Customer:** Billing software for famous local (Ahmedabad based) sweet shop vendor which have 20 years of experience in that business.

**Project:** G Account Management is an accounting software for generate sales and maintaining inventory. Which includes generate sales order and billing etc. It has also admin panel for price management, category management etc.

**Team Size:** 4 Developers, 1 Tester, 1 Project Manager

**Project Role:** Team Member

**Tasks performed:**

- Developed APIs related Order and Admin Panel.
- Developed UI Screens Using Angular, Prime NG.
- Integrated JWT Authentication.
- Integration Java with Cassandra

**Environment:** Java 7, Spring Boot, Spring Data JPA, Gradle, MySQL, Cassandra, Firebase, Angular 2+

**Nov-2018 - Feb-2019** - Software Engineer, Protocolzone Pvt Ltd

**Customer:** State Government CM Dashboard Chat Support.

**Project:** Pbot is chatbot which will answer the user questions. Agent users can see the chats and also can directly connect with the end user. Any web-app use as chatbot.

**Team Size:** 4 Developers, 1 Tester, 1 Project Manager

**Project Role:** Team Member

**Tasks performed:**

- Developed Middleware for Rive script read.
- Collaborated with team members for design Chat Module design.
- Developed APIs related to Chat History.
- Developed UI Screen for Admin Panel.

**Environment:** Java 7/8, Spring Boot, Spring Data JPA, Rivescript, Gradle, MySQL, Cassandra, Firebase, Angular 2+

**Mar-2018 - Oct-2018** - Software Engineer, Protocolzone Pvt Ltd

**Customer:** Online Gambling

**Project:** BetrBets is horse racing betting app. User can bet on horse racing as per our suggestion (developed by data team) so maximum chance to win the bet.

**Team Size:** 4 Developers, 1 Tester, 1 Project Manager

**Project Role:** Team Member

**Tasks performed:**

- Developed APIs related to Bet History and User Management.
- Developed Mobile App Pages Using Ionic Framework.
- Integration with firebase, Authentication in firebase.

**Environment:** Java 7/8, Spring Boot, Spring Data JPA, Gradle, MySQL, Cassandra, Firebase, Firestore, Angular 2+, Ionic

**May-2017 - Feb-2018** - Software Engineer, Freelancing

**Customer:** Micro finance Banking Software

**Project:** Group Micro finance Banking Software basically build for Group of people decided to accumulate defined share Amount (Generally very small amount like 100 INR) on defined frequency (Generally it will be once in every month). On every defined frequency All defined group members meet and accumulate share amount to Admin member. This pool amount can be given as loan to any of required group members with charging on defined interest rate (Generally it will be 1% per month). On every year end month, group members can decide Pay-out on earned interest amount throughout the years (Generally they will distribute equivalent amount to group members OR decide to add amount on their existing balanced share amount).

**Team Size:** 2 Developers ,1 Project Manager

**Project Role:** Team Member

**Tasks performed:**

- Collaborated with team in Database design and requirement gathering.
- Developed Middleware for User Loan Module.
- Developed Android app with basic requirements

**Environment:** Java 7, Spring Boot, Spring Data JPA, Maven, MySQL

## **EDUCATION**

**Bachelor's Degree** in Mechanical Engineering, Faculty of Mechanical Engineering - Tatva Institute Of Technological Studies, Modasa - Gujarat Technological University.
