I have great knowledge in most programming languages like Java, Python, Sql, Angular and ionic and much more. Coding has always been my passion. I have a year full experience in SQL and in angular. I have done multiple projects in web development. I have previously worked in a foreign educational institute whose main objective was to train students to enter top tier foreign colleges. Created numerous apps (fitness, automobile, paper manufacturing ) using languages stated in my job cv

- good Proficiency in Java languages
- great Proficiency in SQL
- created multiple websites using ( HTML, CSS )

I love learning new programming languages and make the best use of them. Putting my skills to use has always interested me.

## Work Experience

---

### Android Developer

Instant Host Technologies - Chennai, Tamil Nadu

March 2023 to August 2023

Working as an mobile app trainee, currently learning : Ionic, Angular, Bootstrap, typescript etc. Creating fitness mobile apps using ionic, angular, Bootstrap and Created paper manufacturing app. Worked in back-end using languages :MS-sql, C#sharp, asp.net Created Automobile app using the stated programming languages

### SQL Developer

IDP Education Ltd - Chennai, Tamil Nadu

May 2021 to April 2022

I worked here as an sql developer and dealt with numerous queries. I was working closely with the student and marketing recruitment sector. It is an Educational Institute and I coded numerous queries and programs using SQL/PLSQL as my major coding language under that sector. I worked in the database side (Front end).
