

AFSUL RAHMAN

Python Django Developer | Angular Developer

I am a **Self Taught Full Stack Developer** with **1.5 years of experience**.

 afsult@gmail.com  +91 8547 129 907  Kochi, kerala  linkedin.com/in/afsul-rahman/  github

WORK EXPERIENCE

Senior Full Stack Developer

Algo IT Solutions Limited.

08/2022 - Present,

Ernakulam, India(UK Based)

- Developed UIs using **Angular** and backend systems with **Python/Django**.
- Proficient in Power BI, SQL, and Jupyter for **data analysis**.
- Skilled in **Git** for version control and collaborated effectively in agile, cross-functional teams.

Intern

Brototype

12/2021 - 08/2022,

Ernakulam, India

- Mastered **full-stack development** and **data analysis** in a dynamic learning environment.
- Actively contributed to diverse projects, refining **front-end** and **back-end development** skills.
- Applied analytical techniques to extract actionable insights from data for improved decision-making.
- Displayed adaptability as a **self-learner**, swiftly acquiring new technologies to support team goals.

PROJECTS

Student Job Finder(link)

- Developed a robust job portal using **Django** and **Angular frameworks**.
- Designed three separate interfaces for **employees**, **employers**, and **administrators**.
- Implemented user **authentication** and **profile management** for all user types.
- Integrated advanced **job search** functionality with various filters for precise results.
- Streamlined job **application process**, allowing easy submissions by employees.
- Enabled employers to create and manage **company profiles and post job vacancies**.
- Established **diverse administrative roles** for efficient staff management.

Carpool - Web application

- Django Backend:** Manages **user authentication**, **ride listings**, and an **admin panel** overseeing the platform, incorporating models for users, drivers, rides, and bookings. Views handle authentication, ride requests, and admin tasks.
- React Frontend:** Offers components for user authentication, **ride search**, and **booking**, ensuring a user-friendly interface.
- Integration:** API communication enables secure authentication, potential real-time updates via WebSockets, and an admin dashboard for efficient management of users and rides.

PROFESSIONAL OVERVIEW

I am a versatile Full Stack Developer and Data Analyst with a solid two years of hands-on experience in Django and Angular frameworks. Proficient in building scalable web applications, I excel in both front-end and back-end development, leveraging Django for robust server-side operations and Angular for seamless, dynamic user interfaces. My expertise extends to cloud platforms, where I adeptly deploy and manage applications, utilizing services like AWS, Azure, or Google Cloud Platform to ensure optimal performance and scalability. With a keen eye for data analysis, I integrate analytical tools seamlessly into applications, harnessing insights to drive informed decision-making. My comprehensive skill set encompasses database management, API integration, and a commitment to delivering innovative solutions that exceed expectations.

SKILLS

Postgresql

Django REST Framework

AWS

Problem Solving

TypeScript

Machine Learning

Angular

TECHNICAL SKILLS

Frameworks & Libraries:

Django | Django REST Framework | Angular

Cloud Services:

AWS | Digital Ocean

Programming Languages:

Python | HTML | CSS | TypeScript

Database Management:

MySQL | PostgreSQL

Data Analysis & Visualization:

Power BI | Excel Charts | Numpy | Pandas |
Jupyter Notebook | Tableau | Machine Learning

Version Control:

Git

EDUCATION

Bachelor of Science in Computer Science

University of Calicut

India
