## Experience

---

**Program Manager:** Oct-2023- Dec 2023

***Ocwen Financial Services***

- Led IT and finance projects, mainly focused on standardization in Microsoft 365 (MS 0365) and MCA compliance for accounts having a server physically made available in India with daily backups.
- Managed project priorities, ensuring alignment with business units and key stakeholders for effective service delivery.
- Established project schedules, monitored milestones, and reported bi-weekly updates on time, cost, and resources metrics to management
- Coordinated meetings, resolved project issues, and maintained comprehensive project documentation. Prepared presentations for management as needed.

**Program Manager:** May 2022 – Sept 2023

***TechTree IT Systems Pvt. Ltd***

- Successfully led the development and implementation of the Club Apparel, cardless mobile app-based loyalty program for GCC Client and Tata Starbucks India, resulting in increased customer engagement and loyalty.
- Conducted in-depth requirement gathering and analysis in close collaboration with the client team and project owners, ensuring a comprehensive understanding of project needs and objectives.
- Performed additional responsibility as a Business Analyst and developed a robust business architecture based on scope, processes, alternatives, and risk assessment, laying a strong foundation for successful project execution.
- Translated stakeholder requirements into tangible deliverables, including functional specifications, user cases, user stories, workflow/process diagrams, and data flow/data model diagrams, enabling seamless project development.
- Evaluated and mitigated risks associated with requirements implementation, testing processes, and project communications, ensuring project success and minimizing potential disruptions.

- Maintained effective communication with clients through daily and weekly meetings, documenting requirements thoroughly, and actively exploring innovative solutions, resulting in high client satisfaction and project alignment with expectations.

**Program Manager:** Mar 2014 – May 2022

***Aequs Aerospace***

- Successfully expanded the customer base by cultivating and maintaining effective relationships, while achieving exceptional On Time in Full Delivery (OTIF) performance, elevating customer satisfaction from 90% to an impressive 99%.
- Spearheaded the preparation of high and detailed level manufacturing plans for First Article Inspection (FAI) and Production lots, collaborating closely with diverse teams (Design, Procurement, and Production) to track critical paths on a daily and weekly basis, ensuring timely project completion.
- Played an additional role of Business Development by managing Requests for Quotation (RFQs) and Requests for Information (RFIs), leading to successful proposal submissions, effective negotiation, and contract review, thereby securing new business opportunities.
- Managed the transfer of work effectively with a supplier in France, strategically mitigating risks and enhancing operational resilience.
- Produced comprehensive Management Information System (MIS) reports, providing senior management with real-time updates on project's financial performance, enabling informed decision-making.
- Led the preparation of Sales budgets and conducted capacity analysis based on customer demand and forecast analysis, encompassing Capex, Department Expenses, and Manpower, resulting in streamlined resource allocation, and increased operational efficiency.
- Orchestrated Policy deployment (X Matrix) monthly reviews with senior leadership, diligently monitoring mitigation actions to achieve the 5-year budgeted plan.
- Delivered a compelling Return on Investment (ROI) case study for the procurement of a new machine, backed by meticulous capacity analysis, demonstrating the feasibility and strategic value of the investment.

**Project Manager:** May 2011 – Feb 2014

***Creative Components Pvt. Ltd.***

- Conducted product profitability analysis based on actual cycle time and data, leading to data-driven insights
- Proactively engaged in production planning, effectively identifying and addressing supply chain issues before they occurred, resulting in smoother operations and reduced delays.
- Skillfully managed costs associated with Scrap and Rework, by implementing efficient strategies to minimize wastage and optimize resources, leading to cost savings.
- Successfully achieved a significant reduction in Work in Progress (WIP) and implemented a First-In-First-Out (FIFO) System at WIP/Finished Goods, streamlining inventory management and enhancing productivity.
- Demonstrated an exceptional delivery performance of 100% by implementing the Hiejunka System, ensuring on-time delivery of products.

## Education

---

**BBA- FINANCE | MARCH 2010 | BIMS, DHARWAD UNIVERSITY**
