MIMIT College

Teacher - Economics & Business Studies

I have **taught Economics and Business Studies subjects** to college students for more than a year. Since most of my students were fresh college students new to these subjects, my focus was on creating a strong fundamental foundation for them. My job requirement included, teaching the subjects, giving home assignments, conducting tests & exams. I also used to take one-to-one student sessions where I used to clear the doubts related to the subjects.

INDUSIND Bank

As part of business development team, I used to handle new customer acquisition segment. My job included making on-site visits to meet potential clients. I also used to make cold calls to all the leads I used to get. During the one year I worked at the bank, I helped onboard several new clients for which I received the '**best performer**' award.
