📍 Hyderabad

🖥️ CORE COMPETENCIES

SOC , SIEM,NDR

QRADAR, DARKTRACE

Dashboard & Reporting

Incidence Response

Security Monitoring

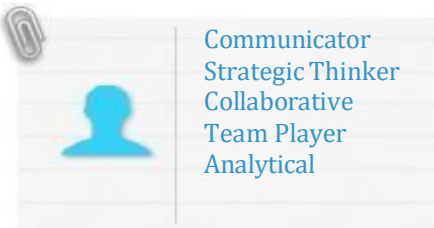

Threat hunting

PROFILE SUMMARY

- Having 4+ Years of experience in IT Industry.
- A competent professional with 4 Years of experience in information security as Security Analyst.
- Proficient understanding of networks management, network security, log management, ethical and security assessment tools.
- Strong knowledge in Security Monitoring and Operation.
- Good experience in SIEM tools.
- Good experience in (QRADAR)
- Investigating and creating case for the security threats and forwarding it to Incident Response team and L3 for further investigation and action.
- Ability to read understand basic system data including security event logs, system logs, application logs, and network traffic.
- Demonstrate understanding for basic internet concepts (e.g. DNS, HTTPS, IP, PORTS).
- Monitoring EDR(SOPHOS) and SIEM consoles
- Creating Daily cyber security report.

🖥️ SOFT SKILLS

CAREER TIMELINE

October – 2019 to PRESENT

IT SKILLS

Tools

: QRADAR,DARKTRACE. CROWDSTRIKE EDR,VIRUSTOTAL.

TECHNICAL Skills

: DNS, , TCP/UDP, OSI &TCP/IP LAYERS, NMAP, WIRESHARK.

Security Skills

: CIA, AAA, Hashing, Encryption, Threat, Vulnerability, Risk, IPS, VPN, IDS, Proxy, Firewall, Malware Analysis Patch Vulnerability Management Life Cycle, Cyber Kill Chain, Phases Of Hacking

WORK EXPERIENCE

COGNIZANT

OCTOBER 2019 - PRESENT

Description : A Security Operation Center (SOC) is a centralized function within an organization employing people, processes, and technology to continuously monitor and improve an organizations security posture while Preventing, Detecting, Analyzing, and responding to Cyber security Incidents through SIEM&DARKTRACE.

Key Result Areas:

Real time monitoring of Network Security components and devices such as Firewall, Routers, System Application, Windows devices, UNIX devices, Web servers. Performing Real Time Analysis on Logs
Manage 24x7 operations at SOC, including event monitoring which includes incident detection, tracking and analyzing on real time basis, report generation.
Create Log monitoring reports on daily, weekly and monthly basis in order to maintain strict SLA adherence
Aggregating and Correlating the Logs and Configuring Reports, Queries, Rules, Filters, Dashboards, Real Time Alerts and Console Resource Operations.
Motivated team player and can adapt and learn new technologies, tools and applications
Investigate Incidents using Channels/Dashboards/Events/Graphs/Annotations/Cases and Reports.
Escalate issues as per the escalation matrix to the operation heads or senior authorities for faster and better resolution.
Integration of Windows Device, Linux Device, Firewalls, routers, IPS, IDS, Proxys, Email gateways, Antivirus managers.
Checking and creation of rules and Report as per client Requirement.
Perform Security SIEM Operational task - Analysis, Optimization, Filters, Active channels, Reports, Suggestion of fine tuning on existing rules.
Monitoring and chasing for closure for security incidents like password getting attack, login failure from multiple hosts. successful password guessing attack.
Investigation of incident and analysis of SIEM Logs.
Analyzing the vulnerability Scan report after remediation of the Specific Vulnerability.
Monitoring and chasing for closure of VAPT and remediation of vulnerabilities
Regularly preparing log monitoring reports and maintaining tracking reports so as to identify bottleneck's and proactively work on them.
Daily Checking Event logs through SIEM.

Highlights:

I Have hands on experience on **QRADAR, EDR CROWDSTRIKE & DARKTRACE** tools.

EDUCATION

BSC-BSKKV UNIVERSITY-----2018 - 67%

12th- SVV JUNIOR COLLEGE ----- 2013-72%

10th-VVHS HIGH SCHOOL -----2011-72%
