

I possess over 16 years of diverse experience encompassing technical expertise, entrepreneurship, and creative ventures.

For the past 4+ years, I have served as an entrepreneurial leader driving innovation in media, IT, and education. Currently, I am spearheading LunchBox, a technology-driven startup revolutionising home food delivery. Additionally, I established GreyStain, an IT services and digital branding company. Furthermore, I have ventured into motion picture productions, founding the award-winning Nakshatra Productions, pioneering creative content.

Before embarking on this entrepreneurial journey, I amassed over 12 years of experience in the Information Technology Industry, particularly in Software Testing Engineering. My proficiency lies in Automation and Performance Testing, where I've refined my abilities to guarantee the quality and efficacy of software products.

ENTREPRENEURIAL SKILLS

- Proven ability to identify market opportunities, develop business strategies, and navigate challenges to drive growth and success in competitive landscapes.
- Continuously seeking opportunities for innovation, disruption, and positive impact, while fostering a culture of creativity, collaboration, and excellence within entrepreneurial ventures.
- Engaged in networking, partnerships, and community engagement initiatives to enhance brand visibility, market presence, and stakeholder relationships.
- Committed to pushing boundaries, embracing change, and shaping the future of industries through entrepreneurship, innovation, and continuous learning.

ACHIEVEMENT AS AUTOMATION TEST LEAD

- As an automation test lead, I spearheaded automation engineering activities, coordinating with the automation team for resourcing, project engineering,

testing, and commissioning support. This involved crafting test automation plans, devising strategies, optimizing processes, and monitoring costs and ROI.

- Monitoring and controlling predefined KPI targets to ensure alignment with team and project objectives.
- Developed the project testing process, automation, and performance frameworks, refining practices, adopting new technologies, and enhancing testing facilities.
- I have effectively coordinated with internal and external stakeholders, continuously staying abreast of emerging trends to identify and implement optimal automation and performance strategies across projects utilizing diverse technologies, ranging from modern to legacy systems.
- Assumed a pivotal role in mentoring and enhancing the skills of QA team members, empowering them with the knowledge and confidence to proficiently utilize automation and performance tools for executing testing processes..
- Proficiently utilized an array of Automation tools such as Selenium WebDriver (Java), QTP, EggPlant, SilkTest, TestComplete, Xcode, WATIR, and RPT to streamline testing processes and ensure optimal software quality.
- Additionally, adeptly executed backend automation tasks leveraging Perl and Shell scripting, while also developing robust API test frameworks utilizing Java web services and navigation APIs.
- I also took charge of implementing, controlling, and monitoring continuous integration of test automation and performance workflows, ensuring seamless integration and efficient testing processes..
- In addition to traditional automation testing tasks, I've spearheaded accessibility test automation initiatives and engineered automation frameworks utilizing AChecker to ensure inclusivity and adherence to accessibility standards..

ACHIEVEMENT AS PERFORMANCE TEST LEAD

- I also took on the additional responsibility of identifying, defining, planning, and implementing performance test solutions, ensuring the robustness and scalability of our software products..

- I actively participated in creating performance test scenarios, configuring test environments, monitoring and controlling comprehensive KPIs, and seamlessly integrating all performance test solutions into our continuous integration system..
- I provided comprehensive training and guidance to QA team members, empowering them with the skills and knowledge needed to excel in performance testing activities..

ENTREPRENEUR ACHIEVEMENTS- DECEMBER 2019- PRESENT

Founder and CEO of "Lunch Box"

A visionary startup with a mission to transform the culinary landscape by offering convenient access to home-cooked meals through innovative technology solutions. Currently in development, this pioneering initiative is led by a team of talented students from Cochin University of Science and Technology (CUSAT), Kochi, Kerala, India.

Co-Founder Of GreyStain

As an IT solutions provider and branding partner, GreyStain specializes in delivering comprehensive software solutions tailored for small to medium-scale enterprises and individuals, complemented by top-notch branding services. From conceptualization to execution, we guide clients through every step, ensuring seamless web and mobile application development, product launch, and promotion. Our distinguished projects include.

Software Development Projects:

- MLM app for Happy Good Life, a prominent private firm based in Kochi.
- "Fun Time" lucky draw mobile app for Happy Good Life.
- Retail mobile application solution for MARVEL.

Branding Solutions Projects:

- Web and mobile app UI design for Dynamics Monk.
- Advertising and branding services for Metro-Fresh, a leading supermarket chain. C
- Comprehensive branding solutions for Mamme's, an all-women homemade pickle manufacturing company in Trivandrum.

Creative Director At Nakshatra Pictures

As the creative force behind Nakshatra Pictures, I led the conceptualization and direction of the feature film "CHUZHAL," which enjoyed widespread acclaim upon its release on global OTT platforms including Amazon, Saina Play, and NeeStream.

Director in C4Career

As the full-time director of C4Career, an esteemed educational institute specializing in bank coaching in Trivandrum, India, I lead the strategic direction and operational management of the institution. Previously, I also served as an interim director, contributing to the institute's growth and success.
